This Semi-Annual Report is authorized for use by existing shareholders. Prospective shareholders must receive a current Davis Financial Portfolio prospectus, which contains more information about investment strategies, risks, charges, and expenses. Please read the prospectus carefully before investing or sending money.

Shares of the Davis Financial Portfolio are not deposits or obligations of any bank, are not guaranteed by any bank, are not insured by the FDIC or any other agency, and involve investment risks, including possible loss of the principal amount invested.

Performance Overview

Davis Financial Portfolio delivered a total return on net asset value of 1.55% for the six-month period ended June 30, 2011. Over the same time period, the Standard & Poor's 500[®] Index ("Index") returned 6.02%. The Index's banking, diversified financial, and insurance industry groups¹ all turned in negative performances, as the Index's financial sector was the only sector of the Index to turn in a negative performance.

Factors Impacting the Portfolio's Performance

The Portfolio's financial sector holdings out-performed the corresponding sector within the Index (up 2% versus down 3% for the Index). The Portfolio had a limited amount of assets invested in other sectors. Those non-financial holdings, mostly in energy and industrials, overall contributed² to the Portfolio's performance.

Diversified financial companies were the largest contributor to the Portfolio's performance. The Portfolio's diversified financial companies out-performed the corresponding industry group within the Index (up 7% versus down 5% for the Index). Oaktree³, American Express, Visa, Moody's, and Cielo were among the most important contributors to performance. Goldman Sachs, Bank of New York Mellon, Julius Baer Group, and First Marblehead were among the most important detractors from performance. The Portfolio no longer owns Moody's.

Insurance companies also contributed to the Portfolio's performance. The Portfolio's insurance companies out-performed the corresponding industry group within the Index (up 1% versus down less than 1% for the Index). Loews, Progressive, and Markel were among the most important contributors to performance. China Life Insurance and Transatlantic Holdings were among the most important detractors from performance.

Banking companies were important detractors from the Portfolio's performance. The Portfolio's banking companies under-performed the corresponding industry group within the Index (down 10% versus down 7% for the Index). State Bank of India and Wells Fargo were among the most important detractors from performance.

The Portfolio had approximately 25% of its net assets invested in foreign companies at June 30, 2011. As a whole, those companies under-performed the domestic companies held by the Portfolio.

Davis Financial Portfolio's investment objective is long-term growth of capital. There can be no assurance that the Portfolio will achieve its objective. Davis Financial Portfolio's principal risks are: stock market risk, manager risk, common stock risk, concentrated portfolio risk, financial services risk, focused portfolio risk, foreign country risk, under \$10 billion market capitalization risk, interest rate sensitivity risk, credit risk, fees and expenses risk, and headline risk. See the prospectus for a full description of each risk.

Davis Financial Portfolio concentrates its investments in the financial sector, and it may be subject to greater risks than a portfolio that does not concentrate its investments in a particular sector. The Portfolio's investment performance, both good and bad, is expected to reflect the economic performance of the financial sector more than a portfolio that does not concentrate its portfolio.

¹ The companies included in the Standard & Poor's 500[®] Index are divided into ten sectors. One or more industry groups make up a sector.

² A company's or sector's contribution to or detraction from the Portfolio's performance is a product both of its appreciation or depreciation and its weighting within the Portfolio. For example, a 5% holding that rises 20% has twice as much impact as a 1% holding that rises 50%.

³ This Management Discussion of Fund Performance discusses a number of individual companies. The information provided in this report does not provide information reasonably sufficient upon which to base an investment decision and should not be considered a recommendation to purchase or sell any particular security. The Schedule of Investments lists the Portfolio's holdings of each company discussed.

COMPARISON OF A \$10,000 INVESTMENT IN DAVIS FINANCIAL PORTFOLIO VERSUS THE STANDARD & POOR’S 500® INDEX OVER 10 YEARS FOR AN INVESTMENT MADE ON JUNE 30, 2001

AVERAGE ANNUAL TOTAL RETURN FOR PERIODS ENDED JUNE 30, 2011

FUND & BENCHMARK INDEX	1-YEAR	5-YEAR	10-YEAR	SINCE FUND’S INCEPTION (07/01/99)	GROSS EXPENSE RATIO	NET EXPENSE RATIO
Davis Financial Portfolio	21.33%	(1.39)%	1.49%	2.61%	0.67%	0.67%
Standard & Poor’s 500® Index	30.69%	2.94%	2.72%	1.44%		

The Standard & Poor’s 500® Index is an unmanaged index of 500 selected common stocks, most of which are listed on the New York Stock Exchange. The Index is adjusted for dividends, weighted towards stocks with large market capitalizations, and represents approximately two-thirds of the total market value of all domestic common stocks. Investments cannot be made directly in the Index.

The performance data for Davis Financial Portfolio contained in this report represents past performance and assumes that all distributions were reinvested, and should not be considered as an indication of future performance from an investment in the Portfolio today. The investment return and principal value will fluctuate so that shares may be worth more or less than their original cost when redeemed. Portfolio performance changes over time and current performance may be higher or lower than stated. The operating expense ratio may vary in future years. For more current information please call Davis Funds Investor Services at 1-800-279-0279.

Portfolio performance numbers are net of all Portfolio operating expenses, but do not include any insurance charges imposed by your insurance company’s separate account. If performance included the effect of these additional charges, the return would be lower.

Davis Financial Portfolio received a favorable class action settlement from a company that it no longer owns. This settlement had a material impact on the investment performance of the Portfolio in 2009. This was a one-time event that is unlikely to be repeated.

DAVIS FINANCIAL PORTFOLIO

Fund Overview
June 30, 2011 (Unaudited)

Portfolio Composition (% of Fund's 06/30/11 Net Assets)		Industry Weightings (% of 06/30/11 Stock Holdings)		
			<u>Fund</u>	<u>S&P 500[®]</u>
Common Stock (U.S.)	73.09%	Diversified Financials	40.57%	6.89%
Common Stock (Foreign)	25.26%	Insurance	30.09%	3.75%
Short-Term Investments	1.56%	Banks	15.85%	2.76%

	<u>100.00%</u>	Commercial & Professional Services	4.15%	0.58%
		Food & Staples Retailing	2.10%	2.32%
		Retailing	1.30%	3.57%
		Materials	0.88%	3.66%
		Information Technology	–	17.77%
		Health Care	–	11.70%
		Other	–	34.22%
			<u>100.00%</u>	<u>100.00%</u>

Top 10 Long-Term Holdings
(% of Fund's 06/30/11 Net Assets)

American Express Co.	8.77%
Oaktree Capital Group LLC, Class A, 144A	8.47%
Transatlantic Holdings, Inc.	8.42%
Loews Corp.	7.38%
Wells Fargo & Co.	6.59%
State Bank of India Ltd., GDR	6.58%
Canadian Natural Resources Ltd.	4.98%
Julius Baer Group Ltd.	4.72%
Markel Corp.	4.62%
Bank of New York Mellon Corp.	4.41%

Example

As a shareholder of the Fund, you incur ongoing costs only, including advisory and administrative fees and other Fund expenses. The Expense Example is intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other mutual funds. The Expense Example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period indicated, which for the Fund is for the six-month period ended June 30, 2011. Please note that the Expense Example is general and does not reflect charges imposed by your insurance company’s separate account or account specific costs, which may increase your total costs of investing in the Fund. If these charges or account specific costs were included in the Expense Example, the expenses would have been higher.

Actual Expenses

The information represented in the row entitled “Actual” provides information about actual account values and actual expenses. You may use the information in this row, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then, multiply the result by the number under the heading “Expenses Paid During Period” to estimate the expenses you paid on your account during this period.

Hypothetical Example for Comparison Purposes

The information represented in the row entitled “Hypothetical” provides information about hypothetical account values and hypothetical expenses based on the Fund’s actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund’s actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only. Therefore, the information in the row entitled “Hypothetical” is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds.

	Beginning Account Value (01/01/11)	Ending Account Value (06/30/11)	Expenses Paid During Period* (01/01/11-06/30/11)
Actual	\$1,000.00	\$1,015.45	\$3.35
Hypothetical	\$1,000.00	\$1,021.47	\$3.36

Hypothetical assumes 5% annual return before expenses.

* Expenses are equal to the Fund’s annualized operating expense ratio (0.67%)**, multiplied by the average account value over the period, multiplied by 181/365 (to reflect the one-half year period).

** The expense ratio reflects the impact, if any, of the reduction of expenses paid indirectly and of certain reimbursements from the Adviser.

See Notes to Financial Statements

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Fund is a separate series of Davis Variable Account Fund, Inc. (a Maryland corporation), which is registered under the Investment Company Act of 1940, as amended, as a diversified, open-end management investment company. Only insurance companies, for the purpose of funding variable annuity or variable life insurance contracts, may purchase shares of the Fund. The following is a summary of significant accounting policies followed by the Fund in the preparation of financial statements.

Security Valuation - The Fund calculates the net asset value of its shares as of the close of the New York Stock Exchange ("Exchange"), normally 4:00 P.M. Eastern time, on each day the Exchange is open for business. Securities listed on the Exchange (and other national exchanges) are valued at the last reported sales price on the day of valuation. Securities traded in the over-the-counter market (e.g. NASDAQ) and listed securities for which no sale was reported on that date are stated at the average of closing bid and asked prices. Securities traded on foreign exchanges are valued based upon the last sales price on the principal exchange on which the security is traded prior to the time when the Fund's assets are valued. Securities (including restricted securities) for which market quotations are not readily available are valued at their fair value. Securities whose values have been materially affected by what Davis Selected Advisers, L.P. ("Davis Advisors" or "Adviser"), the Fund's investment adviser, identifies as a significant event occurring before the Fund's assets are valued but after the close of their respective exchanges will be fair valued. Fair value is determined in good faith using consistently applied procedures under the supervision of the Board of Directors. Short-term securities purchased within 60 days to maturity are valued at amortized cost, which approximates market value. These valuation procedures are reviewed and subject to approval by the Board of Directors.

Value Measurements - Fair value is defined as the price that the Fund would receive upon selling an investment in an orderly transaction to an independent buyer in the principal or most advantageous market for the investment. Various inputs are used to determine the fair value of the Fund's investments. These inputs are summarized in the three broad levels listed below.

- Level 1 – quoted prices in active markets for identical securities
- Level 2 – other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)
- Level 3 – significant unobservable inputs (including Fund's own assumptions in determining the fair value of investments)

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (CONTINUED)

Value Measurements – (Continued)

The following is a summary of the inputs used as of June 30, 2011 in valuing the Fund's investments carried at value:

	Investments in Securities at Value			Total
	Valuation Inputs			
	Level 1: Quoted Prices	Level 2: Other Significant Observable Inputs*	Level 3: Significant Unobservable Inputs	
<u>Equity securities:</u>				
Consumer discretionary	\$ 963,023	\$ –	\$ –	\$ 963,023
Consumer staples	1,559,570	–	–	1,559,570
Energy	3,762,795	–	–	3,762,795
Financials	48,504,367	15,395,203	395,726	64,295,296
Industrials	3,087,190	–	–	3,087,190
Materials	656,955	–	–	656,955
Short-term securities	–	1,178,000	–	1,178,000
Total	<u>\$ 58,533,900</u>	<u>\$ 16,573,203</u>	<u>\$ 395,726</u>	<u>\$ 75,502,829</u>

Level 1 to Level 2 transfers**:

Financials	<u>\$ 8,996,853</u>
------------	---------------------

*Includes certain securities trading primarily outside the U.S. whose value the Fund adjusted as a result of significant market movements following the close of local trading.

**Application of fair value procedures for securities traded on foreign exchanges triggered transfers between Level 1 and Level 2 assets during the six months ended June 30, 2011.

The following table reconciles the valuation of assets in which significant unobservable inputs (Level 3) were used in determining fair value for the six months ended June 30, 2011:

Investment Securities:

Beginning balance	\$ 395,726
Change in unrealized appreciation (depreciation)	–
Net purchases (sales)	–
Ending balance	<u>\$ 395,726</u>

The cost of purchases and the proceeds from sales may include securities received or delivered through corporate actions or exchanges. Realized and unrealized gains (losses) are included in the related amounts on investments in the Statement of Operations.

Master Repurchase Agreements - The Fund, along with other affiliated funds, may transfer uninvested cash balances into one or more master repurchase agreement accounts. These balances are invested in one or more repurchase agreements, secured by U.S. Government securities. A custodian bank holds securities pledged as collateral for repurchase agreements until the agreements mature. Each agreement requires that the market value of the collateral be sufficient to cover payments of interest and principal; however, in the event of default by the other party to the agreement, retention of the collateral may be subject to legal proceedings.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (CONTINUED)

Currency Translation - The market values of all assets and liabilities denominated in foreign currencies are recorded in the financial statements after translation to the U.S. Dollar based upon the mean between the bid and offered quotations of the currencies against U.S. Dollars on the date of valuation. The cost basis of such assets and liabilities is determined based upon historical exchange rates. Income and expenses are translated at average exchange rates in effect as accrued or incurred.

Foreign Currency - The Fund may enter into forward purchases or sales of foreign currencies to hedge certain foreign currency denominated assets and liabilities against declines in market value relative to the U.S. Dollar. Forward currency contracts are marked-to-market daily and the change in market value is recorded by the Fund as an unrealized gain or loss. When the forward currency contract is closed, the Fund records a realized gain or loss equal to the difference between the value of the forward currency contract at the time it was opened and value at the time it was closed. Investments in forward currency contracts may expose the Fund to risks resulting from unanticipated movements in foreign currency exchange rates or failure of the counter-party to the agreement to perform in accordance with the terms of the contract.

Reported net realized foreign exchange gains or losses arise from the sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions, the difference between the amounts of dividends, interest, and foreign withholding taxes recorded on the Fund's books, and the U.S. Dollar equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains and losses arise from changes in the value of assets and liabilities other than investments in securities at fiscal year end, resulting from changes in the exchange rate. The Fund includes foreign currency gains and losses realized on the sale of investments together with market gains and losses on such investments in the Statement of Operations.

Federal Income Taxes - It is the Fund's policy to comply with the requirements of the Internal Revenue Code applicable to regulated investment companies, and to distribute substantially all of its taxable income, including any net realized gains on investments not offset by loss carryovers, to shareholders. Therefore, no provision for federal income or excise tax is required. The Adviser has analyzed the Fund's tax positions taken on federal and state income tax returns for all open tax years and has concluded that as of June 30, 2011, no provision for income tax would be required in the Fund's financial statements related to these tax positions. The Fund's federal and state (Arizona and Maryland) income and federal excise tax returns for tax years for which the applicable statutes of limitations have not expired are subject to examination by the Internal Revenue Service and state departments of revenue. The earliest tax year that remains subject to examination by these jurisdictions is 2007. At December 31, 2010, the Fund had available for federal income tax purposes unused capital loss carryforwards as follows:

	Capital Loss Carryforwards	
<u>Expiring</u>		
12/31/2016	\$	3,410,000
12/31/2017		8,268,000
Total	\$	<u>11,678,000</u>

The Regulated Investment Company Modernization Act of 2010 (the "Act") was enacted on December 22, 2010. The Act makes changes to several tax rules impacting the Fund. In general, the provisions of the Act will be effective for the Fund's fiscal year ending December 31, 2011. Although the Act provides several benefits, including the unlimited carryforward of future capital losses, there may be a greater likelihood that all or a portion of Fund's pre-enactment capital loss carryforwards may expire without being utilized due to the fact that post-enactment capital losses get utilized before pre-enactment capital loss carryforwards. Relevant information regarding the impact of the Act on the Fund, if any, will be contained within the "Federal Income Taxes" section of the Notes to Financial Statements for the fiscal year ending December 31, 2011.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (CONTINUED)

Securities Transactions and Related Investment Income - Securities transactions are accounted for on the trade date (date the order to buy or sell is executed) with realized gain or loss on the sale of securities being determined based upon identified cost. Dividend income is recorded on the ex-dividend date. Interest income, which includes accretion of discount and amortization of premium, is accrued as earned.

Dividends and Distributions to Shareholders - Dividends and distributions to shareholders are recorded on the ex-dividend date. Net investment income (loss), net realized gains (losses), and net unrealized appreciation (depreciation) on investments may differ for financial statement and tax purposes primarily due to differing treatments of wash sales, foreign currency transactions, passive foreign investment company shares, and partnership income. The character of dividends and distributions made during the fiscal year from net investment income and net realized securities gains may differ from their ultimate characterization for federal income tax purposes. Also, due to the timing of dividends and distributions, the fiscal year in which amounts are distributed may differ from the fiscal year in which income or realized gain was recorded by the Fund. The Fund adjusts certain components of capital to reflect permanent differences between financial statement amounts and net income and realized gains/losses determined in accordance with income tax rules.

Indemnification - Under the Fund's organizational documents, its officers and directors are indemnified against certain liabilities arising out of the performance of their duties to the Fund. In addition, some of the Fund's contracts with its service providers contain general indemnification clauses. The Fund's maximum exposure under these arrangements is unknown since the amount of any future claims that may be made against the Fund cannot be determined and the Fund has no historical basis for predicting the likelihood of any such claims.

Use of Estimates in Financial Statements - In preparing financial statements in conformity with accounting principles generally accepted in the United States of America, management makes estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of income and expenses during the reporting period. Actual results may differ from these estimates.

Directors Fees and Expenses - The Fund set up a Rabbi Trust to provide for the deferred compensation plan for Independent Directors that enables them to elect to defer receipt of all or a portion of annual fees they are entitled to receive. The value of an eligible Director's account is based upon years of service and fees paid to each Director during the years of service. The amount paid to the Director by the Trust under the plan will be determined based upon the performance of the Davis Funds in which the amounts are invested.

Unfunded Capital Commitments - Unfunded capital commitments represent agreements which obligate a fund to meet capital calls in the future. Payment would be made when a capital call is requested. Capital calls can only be made if and when certain requirements have been fulfilled; thus, the timing and the amount of such capital calls cannot readily be determined. Unfunded capital commitments are recorded when capital calls are requested. As of June 30, 2011, unfunded capital commitments amounted to \$1,291,188.

NOTE 2 - PURCHASES AND SALES OF SECURITIES

The cost of purchases and proceeds from sales of investment securities (excluding short-term securities) during the six months ended June 30, 2011 were \$6,103,156 and \$13,520,265, respectively.

NOTE 3 - INVESTMENT ADVISORY FEES AND OTHER TRANSACTIONS WITH AFFILIATES

Advisory fees are paid monthly to the Adviser at an annual rate of 0.55% of the Fund's average net assets.

Boston Financial Data Services, Inc. ("BFDS") is the Fund's primary transfer agent. State Street Bank and Trust Company ("State Street Bank") is the Fund's primary accounting provider. Fees for such services are included in the custodian fee as State Street Bank also serves as the Fund's custodian. The Adviser is also paid for certain accounting services. The fee paid to the Adviser for these services for the six months ended June 30, 2011 amounted to \$1,002. Certain directors and officers of the Fund are also directors and officers of the general partner of the Adviser.

Davis Selected Advisers-NY, Inc. ("DSA-NY"), a wholly-owned subsidiary of the Adviser, acts as sub-adviser to the Fund. DSA-NY performs research and portfolio management services for the Fund under a Sub-Advisory Agreement with the Adviser. The Fund pays no fees directly to DSA-NY.

NOTE 4- EXPENSES PAID INDIRECTLY

Under an agreement with State Street Bank, custodian fees are reduced for earnings on cash balances maintained at the custodian by the Fund. Such reductions amounted to \$1 during the six months ended June 30, 2011.

NOTE 5 - CAPITAL STOCK

At June 30, 2011, there were 500 million shares of capital stock (\$0.001 par value per share) authorized. Transactions in capital stock were as follows:

	Six months ended		Year ended	
	June 30, 2011 (Unaudited)		December 31, 2010	
	Shares	Amount	Shares	Amount
Shares sold	244,878	\$ 2,742,415	1,402,090	\$ 14,260,345
Shares issued in reinvestment of distributions	–	–	59,325	650,801
	244,878	2,742,415	1,461,415	14,911,146
Shares redeemed	(968,409)	(10,885,285)	(2,770,797)	(27,844,334)
Net decrease	(723,531)	\$ (8,142,870)	(1,309,382)	\$ (12,933,188)

NOTE 6 - BANK BORROWINGS

The Fund may borrow up to 5% of its assets from a bank to purchase portfolio securities, or for temporary and emergency purposes. The purchase of securities with borrowed funds creates leverage in the Fund. The Fund has entered into an agreement, which enables it to participate with certain other funds managed by the Adviser in an unsecured line of credit with a bank, which permits borrowings up to \$50 million, collectively. Interest is charged based on its borrowings, at a rate equal to the higher of the Federal Funds Rate or the Overnight Libor Rate, plus 1.25%. The Fund had no borrowings during the six months ended June 30, 2011.

NOTE 7 - RESTRICTED SECURITIES

Restricted securities are not registered under the Securities Act of 1933 and may have contractual restrictions on resale. They are valued under methods approved by the Board of Directors as reflecting fair value. The aggregate value of restricted securities amounted to \$395,726 or 0.52% of the Fund's net assets as of June 30, 2011.

Information regarding restricted securities is as follows:

<u>Security</u>	<u>Acquisition Date</u>	<u>Units</u>	<u>Cost per Unit</u>	<u>Valuation per Unit as of June 30, 2011</u>
SKBHC Holdings LLC	11/08/10	122	\$ 5,000.01	\$ 3,250.00

DAVIS FINANCIAL PORTFOLIO

Financial Highlights

The following financial information represents selected data for each share of capital stock outstanding throughout each period:

	Six months ended June 30, 2011 (Unaudited)	Year ended December 31,				
		2010	2009	2008	2007	2006
Net Asset Value, Beginning of Period	\$ 11.00	\$ 9.98	\$ 7.12	\$ 14.27	\$ 16.29	\$ 13.83
Income (Loss) from Investment Operations:						
Net Investment Income	0.10	0.12	0.05	0.08	0.17	0.09
Net Realized and Unrealized Gains (Losses)	0.07	0.99	2.88	(6.76)	(1.12)	2.47
Total from Investment Operations	0.17	1.11	2.93	(6.68)	(0.95)	2.56
Dividends and Distributions:						
Dividends from Net Investment Income	–	(0.09)	(0.07)	–	(0.17)	(0.09)
Distributions from Realized Gains	–	–	–	(0.47)	(0.90)	(0.01)
Total Dividends and Distributions	–	(0.09)	(0.07)	(0.47)	(1.07)	(0.10)
Net Asset Value, End of Period	\$ 11.17	\$ 11.00	\$ 9.98	\$ 7.12	\$ 14.27	\$ 16.29
Total Return ^a	1.55%	11.10%	41.18% ^b	(46.36)%	(6.05)%	18.50%
Ratios/Supplemental Data:						
Net Assets, End of Period (in thousands)	\$ 75,572	\$ 82,403	\$ 87,837	\$ 57,321	\$ 116,725	\$ 155,807
Ratio of Expenses to Average Net Assets:						
Gross	0.67% ^c	0.69%	0.78%	0.88%	0.85%	0.84%
Net ^d	0.67% ^c	0.69%	0.78%	0.88%	0.85%	0.84%
Ratio of Net Investment Income to Average						
Net Assets	1.50% ^c	0.99%	0.67%	0.73%	0.97%	0.66%
Portfolio Turnover Rate ^e	8%	2%	10%	16%	17%	9%

a Assumes hypothetical initial investment on the business day before the first day of the fiscal period, with all dividends and distributions reinvested in additional shares on the reinvestment date, and redemption at the net asset value calculated on the last business day of the fiscal period. Total returns are not annualized for periods of less than one year and do not reflect charges attributable to your insurance company's separate account. Inclusion of these charges would reduce the total returns shown.

b Davis Financial Portfolio received a favorable class action settlement from a company that it no longer owns. This settlement had an approximate impact of 0.4% on the investment performance of the Fund in 2009. This was a one-time event that is unlikely to be repeated.

c Annualized.

d The Net Ratio of Expenses to Average Net Assets reflects the impact, if any, of the reduction of expenses paid indirectly and of certain reimbursements from the Adviser.

e The lesser of purchases or sales of portfolio securities for a period, divided by the monthly average of the market value of portfolio securities owned during the period. Securities with a maturity or expiration date at the time of acquisition of one year or less are excluded from the calculation.

See Notes to Financial Statements

Process of Annual Review

The Board of Directors of the Davis Funds oversees the management of each Davis Fund and, as required by law, determines annually whether to approve the continuance of each Davis Fund's advisory agreement with Davis Selected Advisers, L.P. and sub-advisory agreement with Davis Selected Advisers-NY, Inc. (jointly "Davis Advisors" and "Advisory Agreements").

As a part of this process the Independent Directors, with the assistance of counsel for the Independent Directors, prepared questions submitted to Davis Advisors in anticipation of the annual contract review. The Independent Directors were provided with responsive background material (including recent investment performance data), and their counsel provided guidance, prior to a separate contract review meeting held in March 2011 where the Independent Directors reviewed and evaluated all information which they deemed reasonably necessary in the circumstances. Upon completion of this review, the Independent Directors found that the terms of the Advisory Agreements are fair and reasonable and that continuation of the Advisory Agreements was in the best interest of Davis Financial Portfolio and its shareholders.

Reasons the Independent Directors Approved Continuation of the Advisory Agreements

The Independent Directors' determinations were based upon a comprehensive consideration of all information provided to the Independent Directors and were not the result of any single factor. The following facts and conclusions were important, but not exclusive, in the Independent Directors' recommendation to renew the Advisory Agreements.

The Independent Directors considered not only the investment performance of the Fund, but also the full range and quality of services provided by Davis Advisors to the Fund and its shareholders, including whether it:

1. Achieves satisfactory investment results over the long-term after all costs;
2. Handles shareholder transactions, inquiries, requests, and records efficiently and effectively, and provides quality accounting, legal, and compliance services, and oversight of third party service providers; and
3. Fosters healthy investor behavior.

Davis Advisors is reimbursed a portion of its costs in providing some, but not all, of these services.

A shareholder's ultimate return is the product of a fund's results as well as the shareholder's behavior, specifically in selecting when to invest or redeem. The Independent Directors concluded that, through its actions and communications, Davis Advisors has attempted to have a meaningful, positive impact on investor behavior.

The Independent Directors noted the importance of reviewing quantitative measures, but also recognized that qualitative factors are also important in assessing whether Davis Funds shareholders are likely to be well served by the renewal of the Advisory Agreements. They noted both the value and shortcomings of purely quantitative measures, including the data provided by independent service providers, and concluded that while such measures and data may be informative, the judgment of the Independent Directors must take many factors, including those listed below, into consideration in representing the shareholders of the Davis Funds. In connection with reviewing comparative performance information, the Independent Directors generally give greater weight to longer-term measurements.

The Independent Directors expect Davis Advisors to employ a disciplined, company-specific, research-driven, businesslike, long-term investment philosophy.

The Independent Directors recognized Davis Advisors' (a) efforts to minimize transaction costs by generally having a long-term time horizon and low portfolio turnover; (b) record of generally producing satisfactory results over longer-term periods; (c) efforts towards fostering healthy investor behavior by, among other things, providing informative and substantial educational material; and (d) efforts to promote shareholder interests by actively speaking out on corporate governance issues.

Reasons the Independent Directors Approved Continuation of the Advisory Agreements – (Continued)

The Independent Directors reviewed (a) comparative fee and expense information for other funds, as selected and analyzed by a nationally recognized independent service provider; (b) information regarding fees charged by Davis Advisors to other advisory clients, including funds which it sub-advises and private accounts, as well as the differences in the services provided to such other clients; and (c) the fee schedule of the Fund, including an assessment of competitive fee schedules.

The Independent Directors reviewed the fixed management fee for the Fund and the profitability of the Fund to Davis Advisors, the extent to which economies of scale might be realized if the Fund's net assets increased, and whether the fixed fee reflected those potential economies of scale. The Independent Directors considered the nature, quality, and extent of the services being provided to the Fund and the costs incurred by Davis Advisors in providing such services. The Independent Directors considered various potential benefits that Davis Advisors may receive in connection with the services it provides under the Advisory Agreements with the Fund, including a review of portfolio brokerage practices. The Independent Directors noted that Davis Advisors does not use client commissions to pay for publications that are available to the general public or for third-party research services.

The Independent Directors compared the fees paid to Davis Advisors by the Davis Funds with those paid by Davis Advisor's sub-advised clients, private account clients, and managed money/wrap clients. To the extent sub-advised or private account fees were lower than fees paid by the Funds, the Independent Directors noted that the range of services provided to the Funds is more extensive and the risks associated with operating SEC registered, publicly traded mutual funds are greater. Serving as the primary adviser for mutual funds is more work because of the complex overlay of regulatory, tax and accounting issues which are unique to mutual funds. In addition, the work required to service shareholders is more extensive because of the significantly greater number of shareholders and managing trading is more complex because of more frequent fund flows, as well as IRS diversification compliance. With respect to risk, not only has regulation become more complex and burdensome, but the scrutiny of regulators and shareholders has gotten more intense.

The Independent Directors noted that Davis Financial Portfolio had under-performed its benchmark, the Standard & Poor's 500[®] Index, over the one-, three-, five-, and ten-year time periods ended February 28, 2011. The Fund out-performed the average performance of its peer group as determined by an independent service provider over the three-, five-, and ten-year time periods and matched the one-year time period, all ended December 31, 2010. The Independent Directors noted that the Fund out-performed the Standard & Poor's 500[®] Index in 3 of the 7 rolling five-year time frames and its peer group in all of the 7 rolling five-year time frames ended December 31 for each year from 2004 through 2010. The Fund out-performed the Index in 1 of the 2 rolling ten-year time frames and its peer group in both of the rolling ten-year time frames ended December 31 for each year from 2009 through 2010.

The Independent Directors considered the contractual advisory fee, noting that it was below the asset-weighted average of funds with similar investment objectives as determined by an independent service provider. The Independent Directors also considered the total expense ratio for Davis Financial Portfolio, noting that the expenses were reasonable and below the average ratios of its peer group as determined by an independent service provider.

Approval of Advisory Agreements

The Independent Directors concluded that Davis Advisors had provided Davis Financial Portfolio and its shareholders a reasonable level of both investment and non-investment services. The Independent Directors further concluded that shareholders have received a significant benefit from Davis Advisors' shareholder oriented approach, as well as the execution of its investment discipline.

The Independent Directors determined that the advisory fee for Davis Financial Portfolio was reasonable in light of the nature, quality and extent of the services being provided to the Fund, the costs incurred by Davis Advisors in providing such service, and in comparison to the range of the average advisory fees of its peer group as determined by an independent service provider. The Independent Directors found that the terms of the Advisory Agreements are fair and reasonable and that continuation of the Advisory Agreements was in the best interest of the Fund and its shareholders. The Independent Directors and the full Board of Directors therefore voted to continue the Advisory Agreements.

Portfolio Proxy Voting Policies and Procedures

The Fund has adopted Portfolio Proxy Voting Policies and Procedures under which the Fund votes proxies relating to securities held by the Fund. A description of the Fund's Portfolio Proxy Voting Policies and Procedures is available (i) without charge, upon request, by calling the Fund toll-free at 1-800-279-0279, (ii) on the Fund's website at www.davisfunds.com, and (iii) on the SEC's website at www.sec.gov.

In addition, the Fund is required to file Form N-PX, with its complete proxy voting record for the 12 months ended June 30th, no later than August 31st of each year. The Fund's Form N-PX filing is available (i) without charge, upon request, by calling the Fund toll-free at 1-800-279-0279, (ii) on the Fund's website at www.davisfunds.com, and (iii) on the SEC's website at www.sec.gov.

Form N-Q

The Fund files its complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-Q. The Fund's Form N-Q is available without charge, upon request, by calling 1-800-279-0279, on the Fund's website at www.davisfunds.com, or on the SEC's website at www.sec.gov. The Fund's Form N-Q may be reviewed and copied at the SEC's Public Reference Room in Washington, DC, and information on the operation of the Public Reference Room may be obtained by calling 1-800-SEC-0330.

DAVIS FINANCIAL PORTFOLIO

Directors and Officers

For the purposes of their service as directors to the Davis Funds, the business address for each of the directors is 2949 E. Elvira Road, Suite 101, Tucson, AZ 85756. Each Director serves until their retirement, resignation, death or removal. Subject to exceptions and exemptions, which may be granted by the Independent Directors, Directors must retire at the close of business on the last day of the calendar year in which the Director attains age seventy-four (74).
