Shareholder Letter

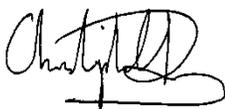

Dear Fellow Shareholder,

As stewards of our customers' savings, the management team and Directors of Davis Global Fund and Davis International Fund recognize the importance of candid, thorough, and regular communication with our shareholders. In our Annual and Semi-Annual Reports we include all of the required quantitative information such as financial statements, detailed footnotes, performance reports, fund holdings, and performance attribution.

In addition, we produce a Manager Commentary for each Fund. In this commentary, we give a more qualitative perspective on fund performance, discuss our thoughts on individual holdings, and share our investment outlook. You may obtain a copy of the current Manager Commentary either on the Funds' website at www.davisfunds.com or by calling 1-800-279-0279.

We thank you for your continued trust. We will do our best to earn it in the years ahead.

Sincerely,

Christopher C. Davis
President

Performance Overview

Davis Global Fund outperformed the Morgan Stanley Capital International All Country World Index (the "Index") for the six-month period ended April 30, 2018 (the "period"). The Fund's Class A shares delivered a total return on net asset value of 3.60%, versus a 3.56% return for the Index. The sectors¹ within the Index that reported the strongest performance were Energy (up 11%), Consumer Discretionary (up 9%), and Financials (up 5%). Only two sectors within the Index reported negative performance, Utilities and Consumer Staples (both down 1%). The third-weakest, but still positive, performing sector was Real Estate (up 1%).

Contributors to Performance

The Financial sector made the most significant contribution² to the Fund's performance on an absolute basis and when compared to the Index, primarily as a result of strong stock selection. The Fund's Financial holdings were up 8%, compared to up 5% for the Index. Three of the Fund's Financial holdings were among the top contributors for the period, including *Noah Holdings*³ (up 32%), *Sul America* (up 16%), and *Bank of N.T. Butterfield & Son* (up 26%).

The Fund's Consumer Discretionary holdings were important contributors on an absolute basis. *Amazon* (up 42%) was the top contributor during the period. A number of the Fund's other top performing securities came from the Consumer Discretionary sector, including *Vipshop Holdings* (up 102%), *TAL Education Group* (up 32%), and *New Oriental Education & Technology Group* (up 8%). The Fund no longer owns *Vipshop Holdings*.

Returns from the Fund's Industrial sector holdings helped performance on both an absolute and relative basis (up 5%, versus up 1% for the Index). The Fund benefited from its strong stock selection in this sector, but suffered slightly as a result of a large overweight in this sector (17%, compared to 11% for the Index). Individual securities which were key contributors to performance included *Safran* (up 12%) and *Ferguson* (up 11%).

The Fund's Health Care holdings outperformed those of the Index (up 15%, compared with up 2%). *Shire* (up 26%) was a key contributor to performance.

The Fund's foreign securities outperformed its domestic securities (up 6%, versus up 2%). The Fund's largest foreign exposure by country was in Chinese companies (29% average weight during the period). In aggregate, these companies were a significant contributor to performance.

Detractors from Performance

The Fund's holdings in the Energy sector were a significant detractor from relative performance. Returns from the Fund's Energy holdings were up less than 1%, compared with up 11% for the Index. Key detractors from performance included *Paramount Resources* (down 17%) and *Cabot Oil & Gas* (down 13%). The Fund no longer owns *Cabot Oil & Gas*.

The Fund's Information Technology holdings detracted from performance on a relative basis as a result of poor stock selection (up 1%, versus up 4% for the Index). One of the weaker performing securities for the period was *Alibaba* (down 3%).

While the Fund held a number of individual Consumer Discretionary sector securities which were key contributors for the period on an absolute basis, the Fund's Consumer Discretionary sector holdings detracted from performance on a relative basis (up 5%, versus up 9%). *Adient* (down 27%) and *Tarena International* (down 30%) were the top two detractors, respectively, for the period. *CarMax* (down 9%), which the Fund no longer owns, was another key detractor for the period.

While its Material holdings performed in-line with those of the Index (both up 3%), *Axalta Coating Systems* (down 9%), which the Fund no longer owns, was a key detractor from performance during the period.

Additional detractors included *Wells Fargo* (down 6%) from the Financial sector, and *Johnson Controls* (down 4%) and *ZTO Express (Cayman)* (down 4%) from the Industrial sector. The Fund no longer owns *ZTO Express (Cayman)*.

Davis Global Fund's investment objective is long-term growth of capital. There can be no assurance that the Fund will achieve its objective. Davis Global Fund's principal risks are: common stock risk, depositary receipts risk, emerging market risk, fees and expenses risk, foreign country risk, foreign currency risk, headline risk, large-capitalization companies risk, manager risk, mid- and small-capitalization companies risk, and stock market risk. See the prospectus for a full description of each risk.

From its inception date in December 2004 until January 2007, shares of Davis Global Fund were not available for public sale. Only the directors, officers, and employees of the Fund, or its investment adviser and sub-adviser (and the investment adviser itself and affiliated companies), were eligible to purchase Fund shares.

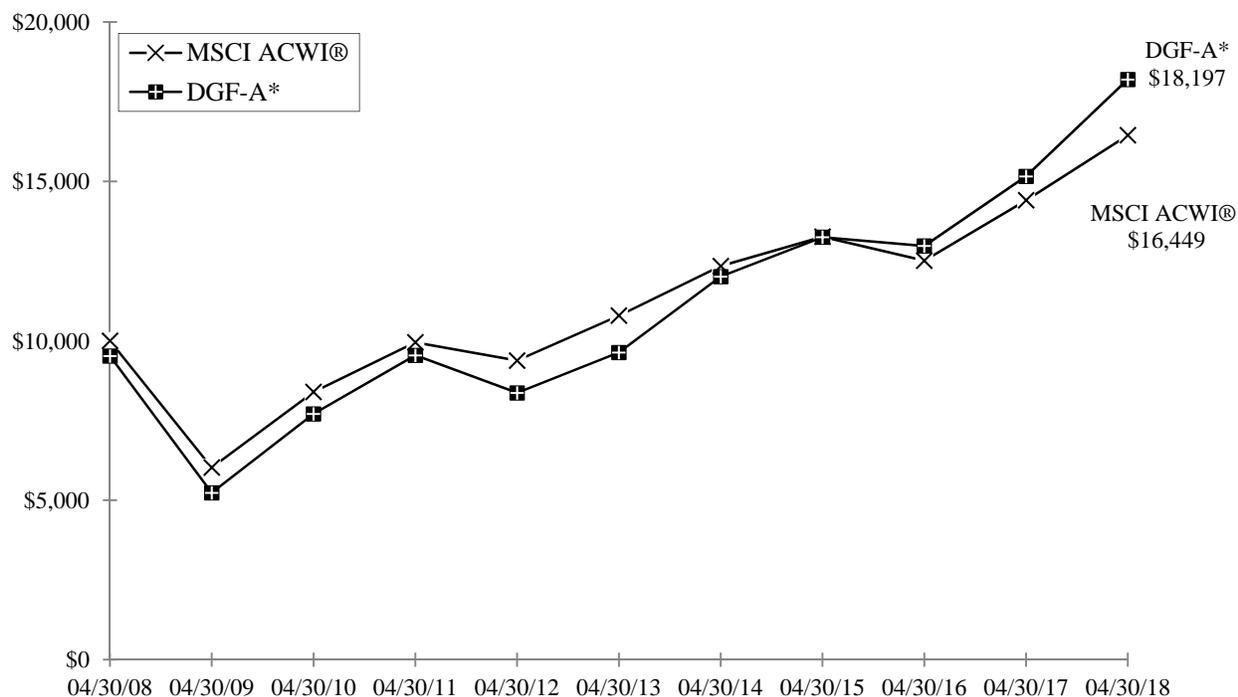

Past performance does not guarantee future results, Fund prices fluctuate, and the value of an investment may be worth more or less than the purchase price. Data provided in this performance overview is for the six-month period ended April 30, 2018, unless otherwise noted. Return figures for underlying Fund positions reflect the return of the security from the beginning of the period or the date of first purchase if subsequent thereto through the end of the period or the date the position is completely liquidated. The actual contribution to the Fund will vary based on a number of factors (e.g., trading activity, weighting). Portfolio holding information is as of the end of the six-month period, April 30, 2018, unless otherwise noted.

¹ The companies included in the Morgan Stanley Capital International All Country World Index are divided into eleven sectors. One or more industry groups make up a sector. For purposes of measuring concentration, the Fund generally classifies companies at the industry group or industry level. See the SAI for additional information regarding the Fund's concentration policy.

² A company's or sector's contribution to or deduction from the Fund's performance is a product both of its appreciation or depreciation and its weighting within the Fund. For example, a 5% holding that rises 20% has twice as much impact as a 1% holding that rises 50%.

³ This Management Discussion of Fund Performance discusses a number of individual companies. The information provided in this report does not provide information reasonably sufficient upon which to base an investment decision and should not be considered a recommendation to purchase, sell, or hold any particular security. The Schedule of Investments lists the Fund's holdings of each company discussed.

The Fund’s performance benefited from IPO purchases in 2013 and 2014. After purchase, the IPOs rapidly increased in value. Davis Advisors purchases shares intending to benefit from long-term growth of the underlying company; the rapid appreciation of the IPOs were unusual occurrences.

The MSCI ACWI® is a free float-adjusted market capitalization weighted index that is designed to measure the equity market performance of developed and emerging markets. The Index includes reinvestment of dividends, net of foreign withholding taxes. Investments cannot be made directly in the Index.

The performance data for Davis Global Fund contained in this report represents past performance, assumes that all distributions were reinvested, and should not be considered as an indication of future performance from an investment in the Fund today. The investment return and principal value will fluctuate so that shares may be worth more or less than their original cost when redeemed. Fund performance changes over time and current performance may be higher or lower than stated. Returns shown do not reflect the deduction of taxes that a shareholder would pay on fund distributions or the redemption of fund shares. The operating expense ratios may vary in future years. Performance Overview

Davis International Fund outperformed the Morgan Stanley Capital International All Country World Index ex USA (the "Index") for the six-month period ended April 30, 2018 (the "period"). The Fund's Class A shares delivered a total return on net asset value of 4.95%, versus a 3.47% return for the Index. The sectors¹ within the Index that reported the strongest performance were Energy (up 11%), Real Estate (up 6%), and Consumer Discretionary (up 5%). All sectors within the Index reported positive performance for the period. The sectors that reported the weakest, yet still positive, performance were Telecommunication Services (up less than 1%), Information Technology (up 1%), and Industrials (up 1%).

Contributors to Performance

The Fund's holdings in the Financial sector made the most significant contribution² to performance on an absolute basis and when compared to the Index (up 19%, versus up 4%) due to strong stock selection. Three of the Fund's Financial sector securities were among the top contributors for the period, including *Sul America*³ (up 16%) and *Noah Holdings* (up 32%), the second- and third-top contributors, respectively, and *Bank of N.T. Butterfield & Son* (up 26%).

Returns from holdings in the Industrial sector helped performance on both an absolute and relative basis (up 8%, compared with up 1% for the Index). *Safran* (up 12%), the Fund's third-largest holding, *Ferguson* (up 11%), and *InterGlobe Aviation* (up 9%) were key contributors to performance.

The Fund's Health Care holdings were an important contributor to performance compared to the Index (up 9%, compared to up 3%). *Shire* (up 26%) was a strong-performing security for the period.

A number of top performing securities came from the Consumer Discretionary sector, including *Vipshop Holdings* (up 102%), *TAL Education Group* (up 32%), and *New Oriental Education & Technology Group* (up 8%). The Fund no longer owns *Vipshop Holdings*.

The Fund benefited from its heavily weighted average position in Chinese securities as compared to the Index (38%, versus 8%). The Chinese holdings made the largest contribution to the Fund's absolute performance at the country level.

Detractors from Performance

The Fund's Energy holdings were the most significant detractor from performance (up 2%, versus up 11% for the Index). *Paramount Resources* (down 17%) was a top detractor for the period.

The Fund's Information Technology securities slightly underperformed those of the Index. This slight underperformance coupled with the Fund's overweight position in this sector (14% average weighting, versus 12%) caused this to be a top detracting sector during the period. Detractors included *Alibaba* (down 3%), the Fund's top holding, and *Hollysys Automation* (down 2%).

The Fund's Consumer Discretionary holdings underperformed those of the Index (up 3%, versus up 5%). Four of the weakest performing securities for the period came from the Consumer Discretionary sector, and these included the top detractor *Tarena International* (down 30%), *Ctrip.com International* (down 15%), *Didi Chuxing* (down 2%), and *Hunter Douglas* (down 6%).

The Fund suffered from weak stock selection in the Material sector when compared to the Index (up 3%, versus up 5%).

Additional detractors from performance included *Yirendai* (down 15%) from the Financial sector, *Meggitt* (down 3%) from the Industrial sector, and *Novartis* (down 4%) from the Health Care sector.

Davis International Fund's investment objective is long-term growth of capital. There can be no assurance that the Fund will achieve its objective. Davis International Fund's principal risks are: common stock risk, depositary receipts risk, emerging market risk, fees and expenses risk, foreign country risk, foreign currency risk, headline risk, large-capitalization companies risk, manager risk, mid- and small-capitalization companies risk, and stock market risk. Expense Example (Unaudited)

As a shareholder of each Fund, you incur two types of costs: (1) transaction costs, which may include sales charges (loads) on purchases, contingent deferred sales charges on redemptions, and redemption fees, if any; and (2) ongoing costs, including advisory and administrative fees, distribution and/or service (12b-1) fees, and other Fund expenses. The Expense Example is intended to help you understand your ongoing costs (in dollars) of investing in each Fund and to compare these costs with the ongoing costs of investing in other mutual funds. The Expense Example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period indicated, which for each class is for the six-month period ended April 30, 2018.

Actual Expenses

The information represented in the row entitled “Actual” provides information about actual account values and actual expenses. You may use the information in this row, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number under the heading “Expenses Paid During Period” to estimate the expenses you paid on your account during this period. An annual maintenance fee of \$15, charged on retirement plan accounts per Social Security Number, is not included in the Expense Example. This fee will be waived for accounts sharing the same Social Security Number if the accounts total at least \$50,000 at Davis Funds. If this fee was included, the estimate of expenses you paid during the period would be higher, and your ending account value would be lower, by this amount.

Hypothetical Example for Comparison Purposes

The information represented in the row entitled “Hypothetical” provides information about hypothetical account values and hypothetical expenses based on each Fund’s actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund’s actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds. An annual maintenance fee of \$15, charged on retirement plan accounts per Social Security Number, is not included in the Expense Example. This fee will be waived for accounts sharing the same Social Security Number if the accounts total at least \$50,000 at Davis Funds. If this fee was included, the estimate of expenses you paid during the period would be higher, and your ending account value would be lower, by this amount.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as front-end or contingent deferred sales charges (loads) or redemption fees. Therefore, the information in the row entitled “Hypothetical” is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would be higher.

Hypothetical	\$1,000.00	\$1,021.37	\$3.46

Hypothetical assumes 5% annual return before expenses.

*Expenses are equal to each Class's annualized operating expense ratio, multiplied by the average account value over the period, multiplied by 181/365 (to reflect the one-half year period).

**The expense ratios reflect the impact, if any, of certain reimbursements from the Adviser.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Davis New York Venture Fund, Inc. (a Maryland corporation) (“Company”), is registered under the Investment Company Act of 1940, as amended, as a diversified, open-end management investment company. The Company operates as a series issuing shares of common stock including the following two funds (collectively “Funds”):

Davis Global Fund seeks to achieve long-term growth of capital. It invests principally in common stocks issued by both United States and foreign companies, including countries with developed or emerging markets. The Fund commenced operations on December 22, 2004, and until January 1, 2007, shares of the Fund were not available for public sale.

Davis International Fund seeks to achieve long-term growth of capital. It invests principally in common stocks issued by foreign companies, including countries with developed or emerging markets. The Fund commenced operations on December 29, 2006, and until January 1, 2010, shares of the Fund were not available for public sale.

Because of the risk inherent in any investment program, the Company cannot ensure that the investment objective of its Funds will be achieved.

Prior to being available for public sale, only the directors, officers, and employees of the Funds or their investment adviser and sub-adviser (and the investment adviser itself and affiliated companies) were eligible to purchase the Funds’ shares.

The Funds follow the reporting guidance of the Financial Accounting Standards Board (“FASB”) *Accounting Standards Codification Topic 946, Financial Services – Investment Companies*.

The Company accounts separately for the assets, liabilities, and operations of each Fund. Each Fund offers Class A, Class C, and Class Y shares, and previously offered Class B shares for new purchases through April 30, 2013. Class B shares were closed by conversion into Class A shares on August 31, 2017. Class A shares are sold with a front-end sales charge. Class C shares are sold at net asset value and may be subject to a contingent deferred sales charge upon redemption. Effective July 1, 2018, Class C shares automatically convert to Class A shares after 10 years. Any existing Class C shares held longer than 10 years as of July 1, 2018 will convert in July 2018. Class Y shares are sold at net asset value and are not subject to any contingent deferred sales charge upon redemption. Class Y shares are only available to certain qualified investors. Income, expenses (other than those attributable to a specific class), and gains and losses are allocated daily to each class of shares based upon the relative proportion of net assets represented by each class. Operating expenses are recorded on the accrual basis and those directly attributable to a specific class, such as distribution and transfer agent fees, are charged against the operations of that class. All classes have identical rights with respect to voting (exclusive of each class’ distribution arrangement), liquidation, and distributions. Each Fund assesses a 2% fee on the proceeds of Fund shares that are redeemed (either by selling or exchanging to another Davis Fund) within 30 days of their purchase. The fee, which is retained by each Fund, is accounted for as an addition to paid-in capital. The following is a summary of significant accounting policies followed by the Funds in the preparation of their financial statements.

Security Valuation - The Funds calculate the net asset value of their shares as of the close of the New York Stock Exchange (“Exchange”), normally 4:00 P.M. Eastern time, on each day the Exchange is open for business. Securities listed on the Exchange (and other national exchanges including NASDAQ) are valued at the last reported sales price on the day of valuation. Listed securities for which no sale was reported on that date are valued at the last quoted bid price. Securities traded on foreign exchanges are valued based upon the last sales price on the principal exchange on which the security is traded prior to the time when the Funds’ assets are valued. Securities (including restricted securities) for which market quotations are not readily available or securities whose values have been materially affected by what Davis Selected Advisers, L.P. (“Davis Advisors” or “Adviser”), the Funds’ investment adviser, identifies as a significant event occurring before the Funds’ assets are valued, but after the close of their respective exchanges will be fair valued using a fair valuation methodology applicable to the security type or the significant event as previously approved by the Funds’ Pricing Committee and Board of Directors. The Pricing Committee considers all facts it deems relevant that are reasonably available, through either public information or information available to the Adviser’s portfolio management team, when determining the fair value of a security. To assess the appropriateness of security valuations, the Adviser may consider (i) comparing prior day prices and/or prices of comparable securities; (ii) comparing sale prices to the prior or current day prices and challenge those prices exceeding certain tolerance levels with the third-party pricing service or broker source; (iii) new rounds of financing; (iv) the performance of the market or the issuer’s industry; (v) the liquidity of the security; (vi) the size of the holding in a fund; and/or (vii) any other appropriate information. The determination of a security’s fair value price often involves the consideration of a number of subjective factors and is therefore subject to the unavoidable risk that the value assigned to a

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (CONTINUED)

Security Valuation - (Continued)

security may be higher or lower than the security's value would be if a reliable market quotation of the security was readily available. Fair value determinations are subject to review, approval, and ratification by the Funds' Board of Directors at its next regularly scheduled meeting covering the period in which the fair valuation was determined. Fair valuation methods used by the Funds may include, but are not limited to, valuing securities initially at cost (excluding commissions) and subsequently adjusting the value due to: additional transactions by the issuer, changes in company specific fundamentals and changes in the value of similar securities. Values may be further adjusted for any discounts related to security-specific resale restrictions.

Short-term securities purchased within 60 days to maturity are valued at amortized cost, which approximates market value.

The Funds' valuation procedures are reviewed and subject to approval by the Board of Directors. There have been no significant changes to the fair valuation procedures during the period.

Fair Value Measurements - Fair value is defined as the price that the Funds would receive upon selling an investment in an orderly transaction to an independent buyer in the principal market for the investment. Various inputs are used to determine the fair value of the Funds' investments. These inputs are summarized in the three broad levels listed below.

- Level 1 – quoted prices in active markets for identical securities
- Level 2 – other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)
- Level 3 – significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The inputs or methodologies used for valuing securities are not necessarily an indication of the risks associated with investing in those securities nor can it be assured that the Funds can obtain the fair value assigned to a security if they were to sell the security.

The following is a summary of the inputs used as of April 30, 2018 in valuing each Fund's investments carried at value:

Fair Value Measurements - (Continued)

The following table reconciles the valuation of assets in which significant unobservable inputs (Level 3) were used in determining fair value during the six months ended April 30, 2018. The net change in unrealized appreciation (depreciation) during the period on Level 3 securities still held at April 30, 2018 was \$(613,895) and \$(145,416) for Davis Global Fund and Davis International Fund, respectively. There were no transfers of investments into or out of Level 3 of the fair value hierarchy during the period. The cost of purchases or proceeds from sales may include securities received or delivered through corporate actions or exchanges. Realized and unrealized gains (losses) are included in the related amounts on investments in the Statements of Operations.

The following table is a summary of those assets in which significant unobservable inputs (Level 3) were used by the Adviser in determining fair value. Note that these amounts exclude any valuations provided by a pricing service or broker.

The significant unobservable inputs listed in the above table are used in the fair value measurement of equity securities, and if changed, would affect the fair value of the Funds' investments. The transaction price inputs are attributable to private securities and include assumptions made from private transactions. The "Impact to Valuation from an Increase in Input" represents the change in fair value measurement resulting from an increase in the corresponding input. A decrease in the input would have the opposite effect.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (CONTINUED)

Master Repurchase Agreements - The Funds, along with other affiliated funds, may transfer uninvested cash balances into one or more master repurchase agreement accounts. These balances are invested in one or more repurchase agreements, secured by U.S. Government securities. A custodian bank holds securities pledged as collateral for repurchase agreements until the agreements mature. Each agreement requires that the market value of the collateral be sufficient to cover payments of interest and principal; however, in the event of default by the other party to the agreement, retention of the collateral may be subject to legal proceedings.

Currency Translation - The market values of all assets and liabilities denominated in foreign currencies are recorded in the financial statements after translation to the U.S. Dollar based upon the mean between the bid and offered quotations of the currencies against U.S. Dollars on the date of valuation. The cost basis of such assets and liabilities is determined based upon historical exchange rates. Income and expenses are translated at average exchange rates in effect as accrued or incurred.

Foreign Currency - The Funds may enter into forward purchases or sales of foreign currencies to hedge certain foreign currency denominated assets and liabilities against declines in market value relative to the U.S. Dollar. Forward currency contracts are marked-to-market daily and the change in market value is recorded by the Funds as an unrealized gain or loss. When the forward currency contract is closed, the Funds record a realized gain or loss equal to the difference between the value of the forward currency contract at the time it was opened and value at the time it was closed. Investments in forward currency contracts may expose the Funds to risks resulting from unanticipated movements in foreign currency exchange rates or failure of the counter-party to the agreement to perform in accordance with the terms of the contract. There were no forward contracts entered into by the Funds.

Reported net realized foreign exchange gains or losses arise from the sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on security transactions, the difference between the amounts of dividends, interest, and foreign withholding taxes recorded on the Funds’ books, and the U.S. Dollar equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains or losses arise from changes in the value of assets and liabilities other than investments in securities at fiscal year end, resulting from changes in the exchange rate. The Funds include foreign currency gains and losses realized on the sales of investments together with market gains and losses on such investments in the Statements of Operations.

Federal Income Taxes - It is each Fund’s policy to comply with the requirements of the Internal Revenue Code applicable to regulated investment companies, and to distribute substantially all of its taxable income, including any net realized gains on investments not offset by loss carryovers, to shareholders. Therefore, no provision for federal income or excise tax is required. The Adviser analyzed the Funds’ tax positions taken on federal and state income tax returns for all open tax years and concluded that as of April 30, 2018, no provision for income tax is required in the Funds’ financial statements related to these tax positions. The Funds’ federal and state (Arizona) income and federal excise tax returns for tax years for which the applicable statutes of limitations have not expired are subject to examination by the Internal Revenue Service and state Department of Revenue. The earliest tax year that remains subject to examination by these jurisdictions is 2014.

Capital losses with no expiration date will be carried forward to future years if not offset by gains. At October 31, 2017, the Funds had available for federal income tax purposes unused capital loss carryforwards as follows:

	<u>Capital Loss Carryforwards</u>	
	<u>Davis Global Fund</u>	<u>Davis International Fund</u>
<u>No Expiration</u>		
Short-term	\$ -	\$ -
Long-term	1,299,956	2,470,140
Total	<u>\$ 1,299,956</u>	<u>\$ 2,470,140</u>

Additionally, based on the Funds’ understanding of the tax rules and rates related to income, gains, and transactions for the foreign jurisdictions in which they invest, the Funds will provide for foreign taxes, and where appropriate, deferred foreign taxes.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (CONTINUED)

Federal Income Taxes - (Continued)

At April 30, 2018, the aggregate cost of investments and unrealized appreciation (depreciation) for federal income tax purposes were as follows:

	<u>Davis Global Fund</u>	<u>Davis International Fund</u>
Cost	\$ 953,809,191	\$ 267,274,362
Unrealized appreciation	266,458,891	44,321,664
Unrealized depreciation	<u>(14,868,512)</u>	<u>(5,774,613)</u>
Net unrealized appreciation	<u>\$ 251,590,379</u>	<u>\$ 38,547,051</u>

Securities Transactions and Related Investment Income - Securities transactions are accounted for on the trade date (date the order to buy or sell is executed) with realized gain or loss on the sale of securities being determined based upon identified cost. Dividend income is recorded on the ex-dividend date. Interest income, which includes accretion of discount and amortization of premium, is accrued as earned.

Dividends and Distributions to Shareholders - Dividends and distributions to shareholders are recorded on the ex-dividend date. Net investment income (loss), net realized gains (losses), and net unrealized appreciation (depreciation) on investments may differ for financial statement and tax purposes primarily due to differing treatments of wash sales, foreign currency transactions, partnership income, and passive foreign investment company shares. The character of dividends and distributions made during the fiscal year from net investment income and net realized securities gains may differ from their ultimate characterization for federal income tax purposes. Also, due to the timing of dividends and distributions, the fiscal year in which amounts are distributed may differ from the fiscal year in which income or realized gain was recorded by the Funds. The Funds adjust certain components of capital to reflect permanent differences between financial statement amounts and net income and realized gains/losses determined in accordance with income tax rules.

Indemnification - Under the Funds' organizational documents, their officers and directors are indemnified against certain liabilities arising out of the performance of their duties to the Funds. In addition, some of the Funds' contracts with their service providers contain general indemnification clauses. The Funds' maximum exposure under these arrangements is unknown since the amount of any future claims that may be made against the Funds cannot be determined and the Funds have no historical basis for predicting the likelihood of any such claims.

Use of Estimates in Financial Statements - In preparing financial statements in conformity with accounting principles generally accepted in the United States of America, management makes estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of income and expenses during the reporting period. Actual results may differ from these estimates.

Directors Fees and Expenses - The Funds set up a Rabbi Trust to provide for the deferred compensation plan for Independent Directors that enables them to elect to defer receipt of all or a portion of annual fees they are entitled to receive. The value of an eligible Director's account is based upon years of service and fees paid to each Director during the years of service. The amount paid to the Director by the Trust under the plan will be determined based upon the performance of the Davis Funds in which the amounts are invested.

Proceeds from sales	167,154,377	17,234,654

NOTE 3 - FEES AND OTHER TRANSACTIONS WITH SERVICE PROVIDERS (INCLUDING AFFILIATES)

Davis Selected Advisers-NY, Inc. (“DSA-NY”), a wholly-owned subsidiary of the Adviser, acts as sub-adviser to the Funds. DSA-NY performs research and portfolio management services for the Funds under a Sub-Advisory Agreement with the Adviser. The Funds pay no fees directly to DSA-NY.

All officers of the Funds (including Interested Directors) hold positions as executive officers with the Adviser or its affiliates.

As of April 30, 2018, a related shareholder’s investment in Davis International Fund represents 31% of outstanding shares. Investment activities of this shareholder could have a material impact on the Fund.

Investment Advisory Fees and Reimbursement of Expenses - Advisory fees are paid monthly to the Adviser. The annual rate for each Fund is 0.55% of the average net assets. The Adviser is contractually committed to waive fees and/or reimburse the Funds’ expenses to the extent necessary to cap total annual Fund operating expenses (Class A shares, 1.30%; Class C shares, 2.30%; Class Y shares, 1.05%).

Transfer Agent and Accounting Fees - DST Asset Manager Solutions, Inc. (formerly Boston Financial Data Services, Inc.) is the Funds’ primary transfer agent. State Street Bank and Trust Company (“State Street Bank”) is the Funds’ primary accounting provider. Fees for such services are included in the custodian fees as State Street Bank also serves as the Funds’ custodian. The Adviser is also paid for certain transfer agent and accounting services.

Distribution and Service Plan Fees - The Funds have adopted separate Distribution Plans (“12b-1 Plans”) for Class A and Class C shares. Under the 12b-1 Plans, the Funds reimburse Davis Distributors, LLC (“Distributor”), the Funds’ Underwriter, for amounts paid to dealers as a service fee or commissions with respect to Class A shares sold by dealers, which remain outstanding during the period. The service fee is paid at an annual rate up to 0.25% of the average net assets maintained by the responsible dealers. Each of the Funds pays the Distributor a 12b-1 fee on Class C shares at an annual rate equal to the lesser of 1.25% of the average daily net asset value of Class C shares or the maximum amount provided by applicable rule or regulation of the Financial Industry Regulatory Authority, Inc., which currently is 1.00%. The Funds pay the 12b-1 fee on Class C shares in order: (i) to pay the Distributor distribution fees or commissions on Class C shares which have been sold and (ii) to enable the Distributor to pay service fees on Class C shares which have been sold.

Sales Charges - Front-end sales charges and contingent deferred sales charges (“CDSC”) do not represent expenses of the Funds. They are deducted from the proceeds from sales of Fund shares prior to investment or from redemption proceeds prior to remittance, as applicable.

Class A shares of the Funds are sold at net asset value plus a sales charge and are redeemed at net asset value. On purchases of \$1 million or more, the sales charge will not be applied; however a CDSC of 0.50% may be imposed upon redemption if those shares are redeemed within the first year of purchase.

Class C shares of the Funds are sold and redeemed at net asset value. A CDSC of 1.00% is imposed upon redemption of certain Class C shares within the first year of the original purchase.

The Distributor received commissions earned on sales of Class A shares of the Funds of which a portion was retained by the Distributor and the remaining was re-allowed to investment dealers. Commission advances by the Distributor on the sale of Class C shares of the Funds are re-allowed to qualified selling dealers.

NOTE 5 - BANK BORROWINGS

Each Fund may borrow up to 5% of its assets from a bank to purchase portfolio securities, or for temporary and emergency purposes. The purchase of securities with borrowed funds creates leverage in the Fund. Each Fund has entered into an agreement, which enables it to participate with certain other funds managed by the Adviser in an unsecured line of credit with a bank, which permits borrowings of up to \$50 million, collectively. Interest is charged based on its borrowings, at a rate equal to the higher of the Federal Funds Rate or the one month LIBOR Rate, plus 1.25%. The Funds had no borrowings during the six months ended April 30, 2018.

NOTE 6 - SECURITIES LOANED

The Funds have entered into a securities lending arrangement with State Street Bank. Under the terms of the agreement, the Funds receive fee income from lending transactions; in exchange for such fees, State Street Bank is authorized to loan securities on behalf of the Funds, against receipt of collateral at least equal to the value of the securities loaned. As of April 30, 2018, the Funds did not have any securities on loan. The Funds bear the risk of any deficiency in the amount of the collateral available for return to a borrower due to a loss in an approved investment.

NOTE 7 - RESTRICTED SECURITIES

Restricted securities are not registered under the Securities Act of 1933 and may have contractual restrictions on resale. They are fair valued under methods approved by the Board of Directors. The aggregate value of restricted securities in Davis Global Fund amounted to \$60,586,537 or 5.05% of the Fund's net assets as of April 30, 2018. The aggregate value of restricted securities in Davis International Fund amounted to \$12,909,536 or 4.20% of the Fund's net assets as of April 30, 2018. Information regarding restricted securities is as follows:

^b Assumes hypothetical initial investment on the business day before the first day of the fiscal period, with all dividends and distributions reinvested in additional shares on the reinvestment date, and redemption at the net asset value calculated on the last business day of the fiscal period. Sales charges are not reflected in the total returns. Total returns are not annualized for periods of less than one year. The Funds' performance benefited from IPO purchases in 2013 and/or 2014. After purchase, the IPOs rapidly increased in value. Davis Advisors purchases shares intending to benefit from long-term growth of the underlying company; the rapid appreciation of the IPOs were unusual occurrences.

Process of Annual Review

The Board of Directors of the Davis Funds oversees the management of each Davis Fund and, as required by law, determines annually whether to approve the continuance of each Davis Fund's advisory agreement with Davis Selected Advisers, L.P. and sub-advisory agreement with Davis Selected Advisers-NY, Inc. (jointly "Davis Advisors" and "Advisory Agreements").

With the assistance of counsel to the Independent Directors, the Independent Directors undertook a comprehensive review process in anticipation of their annual contract review meeting, held in March 2018. As part of this process, Davis Advisors provided the Independent Directors with material (including recent investment performance data) that was responsive to questions submitted to Davis Advisors by the Independent Directors. At this meeting, the Independent Directors reviewed and evaluated all information which they deemed reasonably necessary under the circumstances and were provided guidance by their independent counsel. In reaching their decision, the Independent Directors also took into account information furnished to them throughout the year and otherwise provided to them during their quarterly meetings or through other prior communications. The Independent Directors concluded that they had been supplied with sufficient information and data to analyze the Advisory Agreements and that their questions had been sufficiently answered by Davis Advisors. Upon completion of this review, the Independent Directors found that the terms of the Advisory Agreements were fair and reasonable and that continuation of the Advisory Agreements was in the best interests of Davis Global Fund and Davis International Fund and their shareholders.

Reasons the Independent Directors Approved Continuation of the Advisory Agreements

The Independent Directors' determinations were based upon a comprehensive consideration of all information provided to them, and they did not identify any single item or piece of information as the controlling factor. Each Independent Director did not necessarily attribute the same weight to each factor. The following facts and conclusions were important, but not exclusive, to the Independent Directors' recommendation to renew the Advisory Agreements.

The Independent Directors considered the investment performance of each Fund on an absolute basis as well as relative to its benchmark and other comparable funds. The Independent Directors not only considered the investment performance of each Fund, but also the full range and quality of services provided by Davis Advisors to each Fund and its shareholders, including whether a Fund:

1. Achieves satisfactory investment results over the long-term, after all costs;
2. Efficiently and effectively handles shareholder transactions, inquiries, requests and records, provides quality accounting, legal and compliance services, and oversees third-party service providers; and
3. Fosters healthy investor behavior.

Davis Advisors is reimbursed a portion of its costs in providing some but not all of these services.

A shareholder's ultimate return is the product of a fund's results as well as the shareholder's behavior, specifically in selecting when to invest or redeem. The Independent Directors concluded that, through its actions and communications, Davis Advisors has attempted to have a meaningful positive impact on investor behavior.

In aggregate, Davis Advisors, employees of Davis Advisors, and the Davis family have made significant investments in the Funds. The Independent Directors considered that these investments tends to align Davis Advisors', Davis Advisors' employees, and Davis Family's interests with other shareholders, as they face the same risks, pay the same fees, and are motivated to achieve satisfactory long-term returns.

The Independent Directors noted the importance of reviewing quantitative measures, but recognized that qualitative factors are also important in assessing whether Davis Funds' shareholders are likely to be well served by the renewal of the Advisory Agreements. They noted both the value and shortcomings of purely quantitative measures, including the data provided by independent service providers, and concluded that, while such measures and data may be informative, the judgment of the Independent Directors must take many factors into consideration in representing the shareholders of the Davis Funds, including those listed below. In connection with reviewing comparative performance information, the Independent Directors generally give greater weight to longer-term measurements.

Reasons the Independent Directors Approved Continuation of the Advisory Agreements – (Continued)

The Independent Directors noted that Davis Advisors employs a disciplined, company-specific, research-driven, businesslike, long-term investment philosophy. The Independent Directors considered the quality of Davis Advisors' investment process as well as the experience, capability and integrity of its senior management and other personnel.

The Independent Directors recognized Davis Advisors' (a) efforts to minimize transaction costs by generally having a long-term time horizon and low portfolio turnover; (b) focus on tax efficiency; (c) record of generally producing satisfactory results over longer-term periods; (d) efforts towards fostering healthy investor behavior by, among other things, providing informative and substantial educational material; and (e) efforts to promote shareholder interests by actively speaking out on corporate governance issues.

The Independent Directors assessed (a) comparative fee and expense information for other funds, as selected and analyzed by a nationally recognized independent service provider; (b) information regarding fees charged by Davis Advisors to other advisory clients, which includes other funds it advises, other funds which it sub-advises, and private accounts, as well as the differences in the services provided to such other clients; and (c) the fee schedules and breakpoints (if applicable) of each of the Funds, including an assessment of competitive fee schedules (and breakpoints, if applicable).

The Independent Directors reviewed the management fee schedule for each Fund, profitability of each Fund to Davis Advisors, the extent to which economies of scale might be realized if the Funds' net assets increase, and whether the fee schedules should reflect those potential economies of scale at this time. The Independent Directors considered the nature, quality, and extent of the services being provided to each Fund and the costs incurred by Davis Advisors in providing such services. The Independent Directors considered various potential benefits that Davis Advisors may receive in connection with the services it provides under the Advisory Agreements with the Funds, including a review of portfolio brokerage practices. The Independent Directors noted that Davis Advisors does not use client commissions to pay for publications that are available to the general public or for research reports that are created by parties other than the broker-dealers providing trade execution, clearing and/or settlement services to the Funds.

The Independent Directors compared the fees paid to Davis Advisors by the Davis Funds with those paid by Davis Advisors' sub-advised clients, private account clients, and managed money/wrap clients. To the extent sub-advised or private account fees were lower than fees paid by the Funds, the Independent Directors noted that the range of services provided to the Funds is more extensive, with greater risks associated with operating SEC registered, publicly traded mutual funds. Serving as the primary adviser for mutual funds is more work because of the complex overlay of regulatory, tax, and accounting issues, which are unique to mutual funds. In addition, the operational work required to service shareholders is more extensive because of the significantly greater number of shareholders, and managing trading is more complex because of more frequent fund flows. With respect to risk, not only has regulation become more complex and burdensome, but the scrutiny of regulators and shareholders has become more intense. The Independent Directors concluded that reasonable justifications existed for the differences between the fee rates for the Funds and Davis Advisors' other lines of business.

Davis Global Fund

The Independent Directors noted that Davis Global Fund Class A shares outperformed its benchmark, the Morgan Stanley Capital International All Country World Index ("MSCI ACWI[®]"), over the one-, three-, five-, and ten-year time periods, as well as since inception (December 22, 2004), all periods ended February 28, 2018. Broadridge (an independent service provider) presented a report to the Independent Directors that compared the Fund to all retail and institutional global multi-cap growth funds (the "Performance Universe Average"), as well as the relevant Lipper Index. The report indicated that the Fund outperformed the Performance Universe Average and the relevant Lipper Index over the one-, two-, three-, four-, five-, and ten-year periods, all periods ended December 31, 2017. The Independent Directors noted that the Fund outperformed the MSCI ACWI[®] in 8 out of 10 rolling five-year time frames and outperformed the Lipper Global Multi-Cap Growth category in 7 out of 10 rolling five-year time frames, ended December 31 for each year from 2008 through 2017. The Fund outperformed the MSCI ACWI[®] and Lipper Global Multi-Cap Growth category in 5 out of 5 rolling ten-year time frames, ended December 31 for each year from 2013 through 2017.

Director Approval of Advisory Agreements (Unaudited) – (Continued)

Davis Global Fund – (Continued)

The Independent Directors noted that the management fee and total expense ratio for Davis Global Fund Class A shares generally compared favorably to those of similar funds. They observed that the management fee and total expense ratio were reasonable and below the average and median of its peer group as determined by Broadridge.

Davis International Fund

The Independent Directors noted that Davis International Fund Class A shares outperformed its benchmark, the Morgan Stanley Capital International All Country World Index ex USA (“MSCI ACWI[®] ex USA”), over the one-, three-, five-, ten-year time periods, as well as since inception (December 29, 2006), all periods ended February 28, 2018. The Broadridge report compared the Fund to all retail and institutional international multi-cap growth funds (the “Performance Universe Average”), as well as the relevant Lipper Index. The report indicated that the Fund outperformed the Performance Universe Average and the relevant Lipper Index over the one-, two-, three-, four-, and five-year time periods, all periods ended December 31, 2017. During the ten-year time period, ended December 31, 2017, the Fund underperformed the Performance Universe Average and the relevant Lipper Index. The Independent Directors noted that the Fund outperformed the MSCI ACWI[®] ex USA in 5 out of 8 rolling five-year time frames and outperformed the Lipper International Multi-Cap Growth category in 3 out of 8 rolling five-year time frames, ended December 31 for each year from 2010 through 2017. The Fund outperformed the MSCI ACWI[®] ex USA in 2 out of 3 rolling ten-year time frames and outperformed the Lipper International Multi-Cap Growth category in 1 out of 3 rolling ten-year time frames, ended December 31 for each year from 2015 through 2017.

The Independent Directors noted that the management fee and total expense ratio for Davis International Fund Class A shares generally compared favorably to those of similar funds. They observed that the management fee and total expense ratio were reasonable and below the average and median of its peer group as determined by Broadridge.

Approval of Advisory Agreements

The Independent Directors concluded that Davis Advisors had provided Davis Global Fund and Davis International Fund and their shareholders a reasonable level of both investment and non-investment services. The Independent Directors further concluded that shareholders have received a significant benefit from Davis Advisors’ shareholder-oriented approach, as well as the execution of its investment discipline.

The Independent Directors determined that the advisory fees for Davis Global Fund and Davis International Fund were reasonable in light of the nature, quality and extent of the services being provided to the Funds, the costs incurred by Davis Advisors in providing such service, and in comparison to the range of the average advisory fees of their peer groups as determined by an independent service provider. The Independent Directors found that the terms of the Advisory Agreements are fair and reasonable and that continuation of the Advisory Agreements is in the best interests of each Fund and its shareholders. The Independent Directors and the full Board of Directors therefore voted to continue the Advisory Agreements.

Privacy Notice

While you generally will be dealing with a broker-dealer or other financial adviser, we may collect information about you from your account application and other forms that you may deliver to us. We use this information to process your requests and transactions; for example, to provide you with additional information about our Funds, to open an account for you, or to process a transaction. In order to service your account and execute your transactions, we may provide your personal information to firms that assist us in servicing your account, such as our transfer agent. We may also provide your name and address to one of our agents for the purpose of mailing to you your account statement and other information about our products and services. We may also gather information through the use of “cookies” when you visit our website. These files help us to recognize repeat visitors and allow easy access to and use of the website. We require these outside firms and agents to protect the confidentiality of your information and to use the information only for the purpose for which the disclosure is made. We do not provide customer names and addresses to outside firms, organizations, or individuals except in furtherance of our business relationship with you or as otherwise allowed by law.

We restrict access to nonpublic personal information about you to those employees who need to know that information to provide products or services to you. We maintain physical, electronic, and procedural safeguards that comply with federal standards to guard your personal information.

Householding

To avoid sending duplicate copies of materials to households, the Funds will mail only one copy of each prospectus, Annual, and Semi-Annual Report to shareholders having the same last name and address on the Funds’ records. The consolidation of these mailings, called householding, benefits the Funds through reduced mailing expense. If you do not want the mailing of these documents to be combined with those to other members of your household, please contact the Davis Funds by phone at 1-800-279-0279. Individual copies of current prospectuses and reports will be sent to you within 30 days after the Funds receive your request to stop householding.
