This Annual Report is authorized for use by existing shareholders. Prospective shareholders must receive a current Davis Value Portfolio prospectus, which contains more information about investment strategies, risks, charges, and expenses. Please read the prospectus carefully before investing or sending money.

Shares of Davis Value Portfolio are not deposits or obligations of any bank, are not guaranteed by any bank, are not insured by the FDIC or any other agency, and involve investment risks, including possible loss of the principal amount invested.

Portfolio Proxy Voting Policies and Procedures

The Fund has adopted Portfolio Proxy Voting Policies and Procedures under which the Fund votes proxies relating to securities held by the Fund. A description of the Fund’s Portfolio Proxy Voting Policies and Procedures is available (i) without charge, upon request, by calling the Fund toll-free at 1-800-279-0279, (ii) on the Fund’s website at www.davisfunds.com, and (iii) on the SEC’s website at www.sec.gov.

In addition, the Fund is required to file Form N-PX, with its complete proxy voting record for the 12 months ended June 30th, no later than August 31st of each year. The Fund’s Form N-PX filing is available (i) without charge, upon request, by calling the Fund toll-free at 1-800-279-0279, (ii) on the Fund’s website at www.davisfunds.com, and (iii) on the SEC’s website at www.sec.gov.

Form N-Q

The Fund files its complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-Q. The Fund’s Form N-Q is available without charge, upon request, by calling 1-800-279-0279, on the Fund’s website at www.davisfunds.com, and on the SEC’s website at www.sec.gov. The Fund’s Form N-Q may be reviewed and copied at the SEC’s Public Reference Room in Washington, D.C., and information on the operation of the Public Reference Room may be obtained by calling 1-800-SEC-0330.

Performance Overview

Davis Value Portfolio outperformed the Standard & Poor's 500[®] Index ("S&P 500[®]") for the twelve-month period ended December 31, 2017 (the "period"). The Fund delivered a total return of 22.63%, versus a 21.83% return for the S&P 500[®]. The sectors¹ within the S&P 500[®] that reported the strongest performance were Information Technology (up 39%), Materials (up 24%), and Financials (up 23%). Only two sectors within the S&P 500[®] reported negative performance, Telecommunication Services and Energy (both down 1%). The third-weakest, but still positive, performing sector was Real Estate (up 11%).

Contributors to Performance

The Fund's holdings in the Consumer Discretionary sector made the most significant contribution to performance² when compared to the S&P 500[®], primarily as a result of strong stock selection. The Fund's Consumer Discretionary holdings were up 39%, compared to up 23% for the S&P 500[®]. *Amazon*³ (up 56%), the Fund's second-largest holding, was the Fund's top contributor for the period.

The Fund continued to hold a large position in Financials. These holdings were the most important contributor to the Fund's performance on an absolute basis. Individual securities which helped performance included *American Express* (up 36%), *JPMorgan Chase* (up 27%), *Berkshire Hathaway* (up 22%), *Capital One Financial* (up 16%), and *Wells Fargo* (up 13%). Each of these holdings was among the Fund's top ten holdings. In fact, at the end of the period, six of the top ten holdings were Financials securities.

When compared to the S&P 500[®], the Fund benefited significantly from being underweight in Consumer Staples (2%, compared to 9%) and Telecommunication Services (0%, compared to 2%).

Other key contributors to performance came from the Fund's Information Technology holdings, and included *Alphabet* (up 34%), the Fund's largest holding, *Facebook* (up 53%), and *Texas Instruments* (up 47%). *Aetna* (up 47%), a Health Care holding, was another top contributor during the period.

Detractors from Performance

The Fund's holdings in the Energy sector were the most significant detractor from performance. The Fund suffered from being overweight (10%, versus 6% for the S&P 500[®]) in one of the weakest performing sectors of the period and also as a result of poor stock selection. The Fund's Energy holdings were down 8%, compared to down 1% for the S&P 500[®]. Two of the Fund's top detractors came from the Energy sector. *Apache* (down 32%), one of the Fund's top ten holdings, was the largest detractor during the period. *EQT* (down 12%), which the Fund no longer owns, was another key detractor for the period.

While the Fund's Information Technology holdings were a positive absolute contributor, they detracted when compared to the S&P 500[®] due to a large underweight position in what was the strongest performing sector (average weighting of 15%, versus 22%). A key detractor, which was also a new holding during the period, was *Alibaba* (down 7%).

Individual securities which detracted from performance included *Johnson Controls* (down 5%) from the Industrials sector, *Valeant Pharmaceuticals* (down 34%) from the Health Care sector, and *Liberty TripAdvisor* (down 37%) and *Delphi Technologies* (down 7%), both from the Consumer Discretionary sector. The Fund no longer owns *Valeant Pharmaceuticals*.

During the period, the Fund had an average weighting of 3% of its net assets in Cash & Equivalents, which weakened performance when compared to the S&P 500[®].

The Fund ended the period with 18% of its net assets in foreign securities, which detracted from performance when compared to the S&P 500[®].

Davis Value Portfolio's investment objective is long-term growth of capital. There can be no assurance that the Fund will achieve its objective. Davis Value Portfolio's principal risks are: common stock risk, depositary receipts risk, emerging market risk, fees and expenses risk, financial services risk, foreign country risk, foreign currency risk, headline risk, large-capitalization companies risk, manager risk, mid- and small-capitalization companies risk, and stock market risk. See the prospectus for a full description of each risk.

Past performance does not guarantee future results, Fund prices fluctuate, and the value of an investment may be worth more or less than the purchase price. Data provided in this performance overview is for the twelve-month period ended December 31, 2017, unless otherwise noted. Return figures for underlying Fund positions reflect the return of the security from the beginning of the period or the date of first purchase if subsequent thereto through the end of the period or the date the position is completely liquidated. The actual contribution to the Fund will vary based on a number of factors (e.g., trading activity, weighting). Portfolio holding information is as of the end of the twelve-month period, December 31, 2017, unless otherwise noted.

¹ The companies included in the Standard & Poor's 500[®] Index are divided into eleven sectors. One or more industry groups make up a sector. For purposes of measuring concentration, the Fund generally classifies companies at the industry group or industry level. See the SAI for additional information regarding the Fund's concentration policy.

² A company's or sector's contribution to or deduction from the Fund's performance is a product both of its appreciation or depreciation and its weighting within the Fund. For example, a 5% holding that rises 20% has twice as much impact as a 1% holding that rises 50%.

³ This Management Discussion of Fund Performance discusses a number of individual companies. The information provided in this report does not provide information reasonably sufficient upon which to base an investment decision and should not be considered a recommendation to purchase, sell, or hold any particular security. The Schedule of Investments lists the Fund's holdings of each company discussed.

COMPARISON OF A \$10,000 INVESTMENT IN DAVIS VALUE PORTFOLIO VERSUS THE STANDARD & POOR’S 500® INDEX OVER 10 YEARS FOR AN INVESTMENT MADE ON DECEMBER 31, 2007

AVERAGE ANNUAL TOTAL RETURN FOR PERIODS ENDED DECEMBER 31, 2017

FUND & BENCHMARK INDEX	1-YEAR	5-YEAR	10-YEAR	SINCE FUND’S INCEPTION (07/01/99)	GROSS EXPENSE RATIO	NET EXPENSE RATIO
Davis Value Portfolio	22.63%	14.55%	6.55%	6.21%	0.64%	0.64%
Standard & Poor’s 500® Index	21.83%	15.79%	8.50%	5.64%		

The Standard & Poor’s 500® Index is an unmanaged index of 500 selected common stocks, most of which are listed on the New York Stock Exchange. The Index is adjusted for dividends, weighted towards stocks with large market capitalizations, and represents approximately two-thirds of the total market value of all domestic common stocks. Investments cannot be made directly in the Index.

The performance data for Davis Value Portfolio contained in this report represents past performance, assumes that all distributions were reinvested, and should not be considered as an indication of future performance from an investment in the Fund today. The investment return and principal value will fluctuate so that shares may be worth more or less than their original cost when redeemed. Fund performance changes over time and current performance may be higher or lower than stated. The operating expense ratio may vary in future years. For more current information please call Davis Funds Investor Services at 1-800-279-0279.

Fund performance numbers are net of all Fund operating expenses, but do not include any insurance charges imposed by your insurance company’s separate account. If performance included the effect of these additional charges, the return would be lower.

Wesco Aircraft Holdings, Inc.	Capital Goods	02/02/17	(48,298)

As a shareholder of the Fund, you incur ongoing costs only, including advisory and administrative fees and other Fund expenses. The Expense Example is intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other mutual funds. The Expense Example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period indicated, which for the Fund is for the six-month period ended December 31, 2017. Please note that the Expense Example is general and does not reflect charges imposed by your insurance company’s separate account or account specific costs, which may increase your total costs of investing in the Fund. If these charges or account specific costs were included in the Expense Example, the expenses would be higher.

Actual Expenses

The information represented in the row entitled “Actual” provides information about actual account values and actual expenses. You may use the information in this row, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number under the heading “Expenses Paid During Period” to estimate the expenses you paid on your account during this period.

Hypothetical Example for Comparison Purposes

The information represented in the row entitled “Hypothetical” provides information about hypothetical account values and hypothetical expenses based on the Fund’s actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund’s actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only. Therefore, the information in the row entitled “Hypothetical” is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds.

	Beginning Account Value (07/01/17)	Ending Account Value (12/31/17)	Expenses Paid During Period* (07/01/17-12/31/17)
Actual	\$1,000.00	\$1,121.51	\$3.37
Hypothetical	\$1,000.00	\$1,022.03	\$3.21

Hypothetical assumes 5% annual return before expenses.

* Expenses are equal to the Fund’s annualized operating expense ratio (0.63%)**, multiplied by the average account value over the period, multiplied by 184/365 (to reflect the one-half year period).

** The expense ratio reflects the impact, if any, of certain reimbursements from the Adviser.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Fund is a separate series of Davis Variable Account Fund, Inc. (a Maryland corporation), is registered under the Investment Company Act of 1940, as amended, as a diversified, open-end management investment company. The Fund follows the reporting guidance of the Financial Accounting Standards Board (“FASB”) *Accounting Standards Codification Topic 946, Financial Services – Investment Companies*. Only insurance companies, for the purpose of funding variable annuity or variable life insurance contracts, may purchase shares of the Fund. The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements.

Security Valuation - The Fund calculates the net asset value of its shares as of the close of the New York Stock Exchange (“Exchange”), normally 4:00 P.M. Eastern time, on each day the Exchange is open for business. Securities listed on the Exchange (and other national exchanges including NASDAQ) are valued at the last reported sales price on the day of valuation. Listed securities for which no sale was reported on that date are valued at the last quoted bid price. Securities traded on foreign exchanges are valued based upon the last sales price on the principal exchange on which the security is traded prior to the time when the Fund’s assets are valued. Securities (including restricted securities) for which market quotations are not readily available or securities whose values have been materially affected by what Davis Selected Advisers, L.P. (“Davis Advisors” or “Adviser”), the Fund’s investment adviser, identifies as a significant event occurring before the Fund’s assets are valued, but after the close of their respective exchanges will be fair valued using a fair valuation methodology applicable to the security type or the significant event as previously approved by the Fund’s Pricing Committee and Board of Directors. The Pricing Committee considers all facts it deems relevant that are reasonably available, through either public information or information available to the Adviser’s portfolio management team, when determining the fair value of a security. To assess the appropriateness of security valuations, the Adviser may consider (i) comparing prior day prices and/or prices of comparable securities; (ii) comparing sale prices to the prior or current day prices and challenge those prices exceeding certain tolerance levels with the third-party pricing service or broker source; (iii) new rounds of financing; (iv) the performance of the market or the issuer’s industry; (v) the liquidity of the security; (vi) the size of the holding in a fund; and/or (vii) any other appropriate information. The determination of a security’s fair value price often involves the consideration of a number of subjective factors and is therefore subject to the unavoidable risk that the value assigned to a security may be higher or lower than the security’s value would be if a reliable market quotation of the security was readily available. Fair value determinations are subject to review, approval, and ratification by the Fund’s Board of Directors at its next regularly scheduled meeting covering the period in which the fair valuation was determined. Fair valuation methods used by the Fund may include, but are not limited to, valuing securities initially at cost (excluding commissions) and subsequently adjusting the value due to: additional transactions by the issuer, changes in company specific fundamentals, and changes in the value of similar securities. Values may be further adjusted for any discounts related to security-specific resale restrictions.

Short-term securities purchased within 60 days to maturity are valued at amortized cost, which approximates market value.

The Fund’s valuation procedures are reviewed and subject to approval by the Board of Directors. There have been no significant changes to the fair valuation procedures during the period.

Fair Value Measurements - Fair value is defined as the price that the Fund would receive upon selling an investment in an orderly transaction to an independent buyer in the principal market for the investment. Various inputs are used to determine the fair value of the Fund’s investments. These inputs are summarized in the three broad levels listed below.

- Level 1 – quoted prices in active markets for identical securities
- Level 2 – other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)
- Level 3 – significant unobservable inputs (including the Fund’s own assumptions in determining the fair value of investments)

The inputs or methodologies used for valuing securities are not necessarily an indication of the risks associated with investing in those securities nor can it be assured that the Fund can obtain the fair value assigned to a security if it were to sell the security.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (CONTINUED)

Fair Value Measurements - (Continued)

The following is a summary of the inputs used as of December 31, 2017 in valuing the Fund's investments carried at value:

	Investments in Securities at Value			
	Valuation Inputs			
	Level 1: Quoted Prices	Level 2: Other Significant Observable Inputs	Level 3: Significant Unobservable Inputs	Total
<u>Equity securities:</u>				
Consumer Discretionary	\$ 41,021,101	\$ –	\$ 6,567,388	\$ 47,588,489
Energy	23,225,880	–	–	23,225,880
Financials	78,920,789	–	–	78,920,789
Health Care	9,719,169	–	–	9,719,169
Industrials	31,208,817	–	–	31,208,817
Information Technology	44,940,628	–	–	44,940,628
Materials	10,941,624	–	–	10,941,624
Short-term securities	–	7,967,000	–	7,967,000
Total Investments	\$ 239,978,008	\$ 7,967,000	\$ 6,567,388	\$ 254,512,396

There were no transfers of investments between Level 1 and Level 2 of the fair value hierarchy during the year ended December 31, 2017.

The following table reconciles the valuation of assets in which significant unobservable inputs (Level 3) were used in determining fair value during the year ended December 31, 2017:

Investment Securities:	
Beginning balance	\$ 4,929,155
Net increase in unrealized appreciation	1,638,233
Ending balance	\$ 6,567,388

Net increase in unrealized appreciation during the period on Level 3 securities still held at December 31, 2017 and included in the change in net assets for the year	\$ 1,638,233
---	--------------

There were no transfers of investments into or out of Level 3 of the fair value hierarchy during the period. Realized and unrealized gains (losses) are included in the related amounts on investments in the Statement of Operations.

The following table is a summary of those assets in which significant unobservable inputs (Level 3) were used by the Adviser in determining fair value. Note that these amounts exclude any valuations provided by a pricing service or broker.

Assets Table					
Investments at Value	Fair Value at December 31, 2017	Valuation Technique	Unobservable Input	Amount	Impact to Valuation from an Increase in Input
Preferred Stock	\$ 6,567,388	Market Approach	Transaction Price	\$ 50.9321	Increase

The significant unobservable input listed in the above table is attributable to a private security and includes assumptions made from a private transaction, and if changed, would affect the fair value of the Fund's investment. The "Impact to Valuation" represents the change in fair value measurement resulting from an increase in the corresponding input. A decrease in the input would have the opposite effect.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (CONTINUED)

Master Repurchase Agreements - The Fund, along with other affiliated funds, may transfer uninvested cash balances into one or more master repurchase agreement accounts. These balances are invested in one or more repurchase agreements, secured by U.S. Government securities. A custodian bank holds securities pledged as collateral for repurchase agreements until the agreements mature. Each agreement requires that the market value of the collateral be sufficient to cover payments of interest and principal; however, in the event of default by the other party to the agreement, retention of the collateral may be subject to legal proceedings.

Currency Translation - The market values of all assets and liabilities denominated in foreign currencies are recorded in the financial statements after translation to the U.S. Dollar based upon the mean between the bid and offered quotations of the currencies against U.S. Dollars on the date of valuation. The cost basis of such assets and liabilities is determined based upon historical exchange rates. Income and expenses are translated at average exchange rates in effect as accrued or incurred.

Foreign Currency - The Fund may enter into forward purchases or sales of foreign currencies to hedge certain foreign currency denominated assets and liabilities against declines in market value relative to the U.S. Dollar. Forward currency contracts are marked-to-market daily and the change in market value is recorded by the Fund as an unrealized gain or loss. When the forward currency contract is closed, the Fund records a realized gain or loss equal to the difference between the value of the forward currency contract at the time it was opened and value at the time it was closed. Investments in forward currency contracts may expose the Fund to risks resulting from unanticipated movements in foreign currency exchange rates or failure of the counter-party to the agreement to perform in accordance with the terms of the contract. There were no forward contracts entered into by the Fund.

Reported net realized foreign exchange gains or losses arise from the sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on security transactions, the difference between the amounts of dividends, interest, and foreign withholding taxes recorded on the Fund's books, and the U.S. Dollar equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains or losses arise from changes in the value of assets and liabilities other than investments in securities at fiscal year end, resulting from changes in the exchange rate. The Fund includes foreign currency gains and losses realized on the sales of investments together with market gains and losses on such investments in the Statement of Operations.

Federal Income Taxes - It is the Fund's policy to comply with the requirements of the Internal Revenue Code applicable to regulated investment companies, and to distribute substantially all of its taxable income, including any net realized gains on investments not offset by loss carryovers, to shareholders. Therefore, no provision for federal income or excise tax is required. The Adviser analyzed the Fund's tax positions taken on federal and state income tax returns for all open tax years and concluded that as of December 31, 2017, no provision for income tax is required in the Fund's financial statements related to these tax positions. The Fund's federal and state (Arizona) income and federal excise tax returns for tax years for which the applicable statutes of limitations have not expired are subject to examination by the Internal Revenue Service and state department of revenue. The earliest tax year that remains subject to examination by these jurisdictions is 2014.

At December 31, 2017, the unrealized appreciation (depreciation) and aggregate cost of securities for federal income tax purposes were as follows:

Unrealized appreciation	\$ 111,180,138
Unrealized depreciation	<u>(2,683,899)</u>
Net unrealized appreciation	<u>\$ 108,496,239</u>
Aggregate cost	\$ 146,016,157

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (CONTINUED)

Securities Transactions and Related Investment Income - Securities transactions are accounted for on the trade date (date the order to buy or sell is executed) with realized gain or loss on the sale of securities being determined based upon identified cost. Dividend income is recorded on the ex-dividend date. Interest income, which includes accretion of discount and amortization of premium, is accrued as earned.

Dividends and Distributions to Shareholders - Dividends and distributions to shareholders are recorded on the ex-dividend date. Net investment income (loss), net realized gains (losses), and net unrealized appreciation (depreciation) on investments may differ for financial statement and tax purposes primarily due to differing treatments of wash sales, corporate actions, Directors' deferred compensation payments, and foreign currency transactions. The character of dividends and distributions made during the fiscal year from net investment income and net realized securities gains may differ from their ultimate characterization for federal income tax purposes. Also, due to the timing of dividends and distributions, the fiscal year in which amounts are distributed may differ from the fiscal year in which income or realized gain was recorded by the Fund. The Fund adjusts certain components of capital to reflect permanent differences between financial statement amounts and net income and realized gains/losses determined in accordance with income tax rules. Accordingly, during the year ended December 31, 2017, amounts have been reclassified to reflect a decrease in undistributed net investment income of \$171 and a corresponding increase in accumulated net realized gains from investments and foreign currency transactions. The Fund's net assets have not been affected by this reclassification.

The tax character of distributions paid during the years ended December 31, 2017 and 2016 was as follows:

	<u>2017</u>	<u>2016</u>
Ordinary income	\$ 1,827,900	\$ 6,371,194
Long-term capital gain	20,335,386	32,553,546
Total	<u>\$ 22,163,286</u>	<u>\$ 38,924,740</u>

As of December 31, 2017, the components of distributable earnings on a tax basis were as follows:

Undistributed net investment income	\$ 348,728
Undistributed long-term capital gain	14,180,245
Net unrealized appreciation on investments	108,496,239
Total	<u>\$ 123,025,212</u>

Indemnification - Under the Fund's organizational documents, its officers and directors are indemnified against certain liabilities arising out of the performance of their duties to the Fund. In addition, some of the Fund's contracts with its service providers contain general indemnification clauses. The Fund's maximum exposure under these arrangements is unknown since the amount of any future claims that may be made against the Fund cannot be determined and the Fund has no historical basis for predicting the likelihood of any such claims.

Use of Estimates in Financial Statements - In preparing financial statements in conformity with accounting principles generally accepted in the United States of America, management makes estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of income and expenses during the reporting period. Actual results may differ from these estimates.

Directors Fees and Expenses - The Fund set up a Rabbi Trust to provide for the deferred compensation plan for Independent Directors that enables them to elect to defer receipt of all or a portion of annual fees they are entitled to receive. The value of an eligible Director's account is based upon years of service and fees paid to each Director during the years of service. The amount paid to the Director by the Trust under the plan will be determined based upon the performance of the Davis Funds in which the amounts are invested.

NOTE 2 - PURCHASES AND SALES OF SECURITIES

The cost of purchases and proceeds from sales of investment securities (excluding short-term securities) during the year ended December 31, 2017 were \$30,210,823 and \$70,449,792, respectively.

NOTE 3 - FEES AND OTHER TRANSACTIONS WITH SERVICE PROVIDERS (INCLUDING AFFILIATES)

Davis Selected Advisers-NY, Inc. (“DSA-NY”), a wholly-owned subsidiary of the Adviser, acts as sub-adviser to the Fund. DSA-NY performs research and portfolio management services for the Fund under a Sub-Advisory Agreement with the Adviser. The Fund pays no fees directly to DSA-NY.

All officers of the Fund (including Interested Directors) hold positions as executive officers with the Adviser or its affiliates.

Investment Advisory Fees - Advisory fees are paid monthly to the Adviser at an annual rate of 0.55% of the Fund’s average net assets. The Adviser is contractually committed to waive fees and/or reimburse the Fund’s expenses to the extent necessary to cap total annual Fund operating expenses at 1.00%.

Accounting Fees - State Street Bank and Trust Company (“State Street Bank”) is the Fund’s primary accounting provider. Fees for accounting services are included in the custodian fees as State Street Bank also serves as the Fund’s custodian. The Adviser is also paid for certain accounting services. The fee paid to the Adviser for these services during the year ended December 31, 2017 amounted to \$8,996.

NOTE 4 - CAPITAL STOCK

At December 31, 2017, there were 500 million shares of capital stock (\$0.001 par value per share) authorized. Transactions in capital stock were as follows:

	Year ended December 31, 2017			
	Sold	Reinvestment of Distributions	Redeemed	Net Decrease
Shares:	497,879	2,172,871	(5,150,910)	(2,480,160)
Value:	\$ 4,991,218	\$ 22,163,286	\$ (51,527,317)	\$ (24,372,813)

	Year ended December 31, 2016			
	Sold	Reinvestment of Distributions	Redeemed	Net Decrease
Shares:	1,289,497	4,249,426	(11,578,576)	(6,039,653)
Value:	\$ 11,917,809	\$ 38,924,739	\$ (114,610,624)	\$ (63,768,076)

NOTE 5 - BANK BORROWINGS

The Fund may borrow up to 5% of its assets from a bank to purchase portfolio securities, or for temporary and emergency purposes. The purchase of securities with borrowed funds creates leverage in the Fund. The Fund has entered into an agreement, which enables it to participate with certain other funds managed by the Adviser in an unsecured line of credit with a bank, which permits borrowings of up to \$50 million, collectively. Interest is charged based on its borrowings, at a rate equal to the higher of the Federal Funds Rate or the one month LIBOR Rate, plus 1.25%. The Fund had no borrowings during the year ended December 31, 2017.

NOTE 6 - SECURITIES LOANED

The Fund has entered into a securities lending arrangement with State Street Bank. Under the terms of the agreement, the Fund receives fee income from lending transactions; in exchange for such fees, State Street Bank is authorized to loan securities on behalf of the Fund, against receipt of collateral at least equal to the value of the securities loaned. As of December 31, 2017, the Fund did not have any securities on loan. The Fund bears the risk of any deficiency in the amount of the collateral available for return to a borrower due to a loss in an approved investment.

NOTE 7 - RESTRICTED SECURITIES

Restricted securities are not registered under the Securities Act of 1933 and may have contractual restrictions on resale. They are fair valued under methods approved by the Board of Directors. The aggregate value of restricted securities amounted to \$6,567,388 or 2.58% of the Fund's net assets as of December 31, 2017. Information regarding restricted securities is as follows:

<u>Security</u>	<u>Initial Acquisition Date</u>	<u>Shares</u>	<u>Cost per Share</u>	<u>Valuation per Share as of December 31, 2017</u>
Didi Chuxing Joint Co., Series A, Pfd.	07/27/15	128,944	\$ 30.7077	\$ 50.9321

FEDERAL INCOME TAX INFORMATION (UNAUDITED)

During the calendar year ended December 31, 2017, the Fund declared and paid long-term capital gain distributions in the amount of \$20,335,386.

During the calendar year ended December 31, 2017, \$1,827,900 of dividends paid by the Fund constituted income dividends for federal income tax purposes. The Fund designates \$1,658,900 or 91% as income qualifying for the corporate dividends-received deduction.

DAVIS VALUE PORTFOLIO

Financial Highlights

The following financial information represents selected data for each share of capital stock outstanding throughout each period:

	Year ended December 31,				
	2017	2016	2015	2014	2013
Net Asset Value, Beginning of Period	\$ 9.10	\$ 9.62	\$ 11.32	\$ 13.48	\$ 10.93
Income from Investment Operations:					
Net Investment Income	0.07 ^a	0.07 ^a	0.10	0.12	0.12
Net Realized and Unrealized Gains	1.99	1.09	0.10	0.73	3.53
Total from Investment Operations	2.06	1.16	0.20	0.85	3.65
Dividends and Distributions:					
Dividends from Net Investment Income	(0.08)	(0.13)	(0.09)	(0.13)	(0.12)
Distributions from Realized Gains	(0.89)	(1.55)	(1.81)	(2.88)	(0.98)
Total Dividends and Distributions	(0.97)	(1.68)	(1.90)	(3.01)	(1.10)
Net Asset Value, End of Period	\$ 10.19	\$ 9.10	\$ 9.62	\$ 11.32	\$ 13.48
Total Return ^b	22.63%	11.88%	1.60%	6.06%	33.43%
Ratios/Supplemental Data:					
Net Assets, End of Period (in thousands)	\$ 254,032	\$ 249,343	\$ 321,746	\$ 365,125	\$ 396,251
Ratio of Expenses to Average Net Assets:					
Gross	0.64%	0.62%	0.62%	0.62%	0.62%
Net ^c	0.64%	0.62%	0.62%	0.62%	0.62%
Ratio of Net Investment Income to Average					
Net Assets	0.72%	0.78%	0.86%	0.82%	0.84%
Portfolio Turnover Rate ^d	12%	18%	27%	26%	10%

a Per share calculations were based on average shares outstanding for the period.

b Assumes hypothetical initial investment on the business day before the first day of the fiscal period, with all dividends and distributions reinvested in additional shares on the reinvestment date, and redemption at the net asset value calculated on the last business day of the fiscal period. Total returns do not reflect charges attributable to your insurance company's separate account. Inclusion of these charges would reduce the total returns shown.

c The Net Ratio of Expenses to Average Net Assets reflects the impact, if any, of certain reimbursements.

d The lesser of purchases or sales of portfolio securities for a period, divided by the monthly average of the market value of portfolio securities owned during the period. Securities with a maturity or expiration date at the time of acquisition of one year or less are excluded from the calculation.

See Notes to Financial Statements

**The Shareholders and Board of Directors
Davis Variable Account Fund, Inc.:***Opinion on the Financial Statements*

We have audited the accompanying statement of assets and liabilities of Davis Value Portfolio (a separate series of Davis Variable Account Fund, Inc.) (the “Fund”), including the schedule of investments, as of December 31, 2017, the related statement of operations for the year then ended, the statements of changes in net assets for each of the years in the two-year period then ended, and the related notes (collectively, the “financial statements”) and the financial highlights for each of the years in the five-year period then ended. In our opinion, the financial statements and financial highlights present fairly, in all material respects, the financial position of the Fund as of December 31, 2017, the results of its operations for the year then ended, the changes in its net assets for each of the years in the two-year period then ended, and the financial highlights for each of the years in the five-year period then ended, in conformity with U.S. generally accepted accounting principles.

Basis for Opinion

These financial statements and financial highlights are the responsibility of the Fund’s management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (“PCAOB”) and are required to be independent with respect to the Fund in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement, whether due to error or fraud. Our audits included performing procedures to assess the risks of material misstatement of the financial statements and financial highlights, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements and financial highlights. Such procedures also included confirmation of securities owned as of December 31, 2017, by correspondence with the custodian and brokers or by other appropriate auditing procedures. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements and financial highlights. We believe that our audits provide a reasonable basis for our opinion.

KPMG LLP

We have served as the auditor of one or more Davis Funds investment companies since 1998.
