Davis New York Venture Fund's investment objective is long-term growth of capital. There can be no assurance that the Fund will achieve its objective. Davis New York Venture Fund's principal risks are: stock market risk, common stock risk, financial services risk, foreign country risk, China risk-generally, headline risk, large-capitalization companies risk, manager risk, depository receipts risk, emerging market risk, fees and expenses risk, foreign currency risk, and mid- and small- capitalization companies risk. See the prospectus for a full description of each risk.

Past performance does not guarantee future results, Fund prices fluctuate, and the value of an investment may be worth more or less than the purchase price. Data provided in this performance overview is for the six-month period ended January 31, 2024, unless otherwise noted. Return figures for underlying Fund positions reflect the return of the security from the beginning of the period or the date of first purchase if subsequent thereto through the end of the period or the date the position is completely liquidated. The actual contribution to the Fund will vary based on a number of factors (e.g., trading activity, weighting). Portfolio holding information is as of the end of the six-month period, January 31, 2024, unless otherwise noted.

¹ The companies included in the Standard & Poor's 500[®] Index are divided into eleven sectors. One or more industry groups make up a sector. For purposes of measuring concentration, the Fund generally classifies companies at the industry group or industry level. See the SAI for additional information regarding the Fund's concentration policy.

² A company's or sector's contribution to or detraction from the Fund's performance is a product both of its appreciation or depreciation and its weighting within the Fund. For example, a 5% holding that rises 20% has twice as much impact as a 1% holding that rises 50%.

³ Management's Discussion of Fund Performance discusses a number of individual companies. The information provided in this report does not provide information reasonably sufficient upon which to base an investment decision and should not be considered a recommendation to purchase, sell, or hold any particular security. The Schedule of Investments lists the Fund's holdings of each company discussed.

The Index is adjusted for dividends, weighted towards stocks with large market capitalizations, and represents approximately two-thirds of the total market value of all domestic common stocks. Investments cannot be made directly in the Index.

The performance data quoted in this report represents past performance, assumes that all distributions were reinvested, and is not a guarantee of future results. The investment return and principal value will fluctuate so that shares may be worth more or less than their original cost when redeemed. Current performance may be higher or lower than performance data quoted. Returns shown do not reflect the deduction of taxes that a shareholder would pay on fund distributions or the redemption of fund shares. The operating expense ratios may vary in future years. As a shareholder of the Fund, you incur two types of costs: (1) transaction costs, which may include sales charges (loads) on purchases and contingent deferred sales charges on redemptions; and (2) ongoing costs, including advisory and administrative fees, distribution and/or service (12b-1) fees, and other Fund expenses. The Expense Example is intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other mutual funds. The Expense Example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period indicated which for each class is for the six-month period ended January 31, 2024.

Actual Expenses

The information represented in the row entitled “Actual” provides information about actual account values and actual expenses. You may use the information in this row, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number under the heading “Expenses Paid During Period” to estimate the expenses you paid on your account during this period. An annual maintenance fee of \$15, charged on retirement plan accounts per Social Security Number, is not included in the Expense Example. This fee will be waived for accounts sharing the same Social Security Number if the accounts total at least \$50,000 at Davis Funds. If this fee was included, the estimate of expenses you paid during the period would be higher, and your ending account value would be lower, by this amount.

Hypothetical Example for Comparison Purposes

The information represented in the row entitled “Hypothetical” provides information about hypothetical account values and hypothetical expenses based on the Fund’s actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund’s actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds. An annual maintenance fee of \$15, charged on retirement plan accounts per Social Security Number, is not included in the Expense Example. This fee will be waived for accounts sharing the same Social Security Number if the accounts total at least \$50,000 at Davis Funds. If this fee was included, the estimate of expenses you paid during the period would be higher, and your ending account value would be lower, by this amount.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as front-end or contingent deferred sales charges (loads). Therefore, the information in the row entitled “Hypothetical” is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would be higher.

Actual	\$1,000.00	\$1,044.99	\$3.44
Hypothetical	\$1,000.00	\$1,021.77	\$3.40

Hypothetical assumes 5% annual return before expenses.

*Expenses are equal to each Class’s annualized operating expense ratio, multiplied by the average account value over the period, multiplied by 184/366 (to reflect the one-half year period).

**The expense ratios reflect the impact, if any, of certain reimbursements and/or waivers from the Adviser.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Fund is a separate series of Davis New York Venture Fund, Inc. (a Maryland corporation). The Fund is registered under the Investment Company Act of 1940, as amended, as a diversified, open-end management investment company. The Fund follows the reporting guidance of the Financial Accounting Standards Board (“FASB”) *Accounting Standards Codification Topic 946, Financial Services – Investment Companies*. The Fund’s investment objective is long-term growth of capital. The Fund offers shares in four classes, Class A, Class C, Class R, and Class Y. Class B shares are no longer offered for new purchases. New Class B share account applications will be returned and any investments for existing Class B share accounts will be made in Class A shares of Davis Government Money Market Fund. Class A shares are sold with a front-end sales charge. Class C shares are sold and Class B shares were sold at net asset value and both may be subject to a contingent deferred sales charge upon redemption. Class B shares automatically convert to Class A shares after 7 years. Class C shares automatically convert to Class A shares after 8 years. Class R and Class Y shares are sold at net asset value and are not subject to any contingent deferred sales charge upon redemption. Class R shares generally are available only to retirement and benefit plans. Class Y shares are only available to certain qualified investors. Income, expenses (other than those attributable to a specific class), and gains and losses are allocated daily to each class based upon the relative proportion of net assets represented by each class. Operating expenses directly attributable to a specific class, such as distribution and transfer agent fees, are charged against the operations of that class. All classes have identical rights with respect to voting (exclusive of each class’ distribution arrangement), liquidation, and distributions. The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements.

Security Valuation - The Fund’s Board of Directors has designated Davis Selected Advisers, L.P. (“Davis Advisors” or “Adviser”), the Fund’s investment adviser, as the valuation designee for the Fund. The Adviser has established a Pricing Committee to carry out the day-to-day valuation activities for the Fund. The Fund calculates the net asset value of its shares as of the close of the New York Stock Exchange (“Exchange”), normally 4:00 P.M. Eastern time, on each day the Exchange is open for business. Securities listed on the Exchange (and other national exchanges including NASDAQ) are valued at the last reported sales price on the day of valuation. Listed securities for which no sale was reported on that date are valued at the last quoted bid price. Securities traded on foreign exchanges are valued based upon the last sales price on the principal exchange on which the security is traded prior to the time when the Fund’s assets are valued. Securities (including restricted securities) for which market quotations are not readily available or securities whose values have been materially affected by what the Adviser identifies as a significant event occurring before the Fund’s assets are valued, but after the close of their respective exchanges, will be fair valued using a fair valuation methodology applicable to the security type or the significant event as previously approved by the Pricing Committee. The Pricing Committee considers all facts it deems relevant that are reasonably available, through either public information or information available to the Adviser’s portfolio management team, when determining the fair value of a security. To assess the appropriateness of security valuations, the Pricing Committee may consider (i) comparing prior day prices and/or prices of comparable securities; (ii) comparing sale prices to the prior or current day prices and challenge those prices exceeding certain tolerance levels with the third-party pricing service or broker source; (iii) new rounds of financing; (iv) the performance of the market or the issuer’s industry; (v) the liquidity of the security; (vi) the size of the holding in a fund; and/or (vii) any other appropriate information. The determination of a security’s fair value price often involves the consideration of a number of subjective factors and is therefore subject to the unavoidable risk that the value assigned to a security may be higher or lower than the security’s value would be if a reliable market quotation for the security was readily available.

Short-term investments purchased within 60 days to maturity are valued at amortized cost, which approximates market value.

On a quarterly basis, the Board of Directors receives reports of valuation actions taken by the Pricing Committee. On at least an annual basis, the Board of Directors receives an assessment of the adequacy and effectiveness of the Adviser’s process for determining the fair value of the Fund’s investments.

Fair Value Measurements - Fair value is defined as the price that the Fund would receive upon selling an investment in an orderly transaction to an independent buyer in the principal market for the investment. Various inputs are used to determine the fair value of the Fund’s investments. These inputs are summarized in the three broad levels listed below.

- Level 1 – quoted prices in active markets for identical securities
- Level 2 – other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)
- Level 3 – significant unobservable inputs (including the Fund’s own assumptions in determining the fair value of investments)

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (CONTINUED)

Fair Value Measurements - (Continued)

The inputs or methodologies used for valuing securities are not necessarily an indication of the risks associated with investing in those securities nor can it be assured that the Fund can obtain the fair value assigned to a security if it were to sell the security.

The following is a summary of the inputs used as of January 31, 2024 in valuing the Fund's investments carried at value:

	Investments in Securities at Value			
	Valuation Inputs			Total
	Level 1: Quoted Prices	Level 2: Other Significant Observable Inputs*	Level 3: Significant Unobservable Inputs

* Includes certain securities trading primarily outside the U.S. whose value the Fund adjusted as a result of significant market movements following the close of local trading.

The following table reconciles the valuation of assets in which significant unobservable inputs (Level 3) were used in determining fair value during the six months ended January 31, 2024. The net change in unrealized appreciation (depreciation) during the period on Level 3 securities still held at January 31, 2024 was \$167,089. The cost of purchases or proceeds from sales may include securities received or delivered through corporate actions or exchanges. Realized and unrealized gains (losses) are included in the related amounts on investments in the Statement of Operations.

	Beginning Balance at August 1, 2023	Cost of Purchases	Proceeds from Sales	Net Change in Unrealized Appreciation (Depreciation)	Net Realized Gain (Loss)	Transfers into Level 3	Transfers out of Level 3	Ending Balance at January 31, 2024
<i>Investments in Securities:</i>								
Common Stock	\$ 4,207,576	\$ —	\$ —	\$ 167,089	\$ —	\$ —	\$ —	\$ 4,374,665
Total Level 3	\$ 4,207,576	\$ —	\$ —	\$ 167,089	\$ —	\$ —	\$ —	\$ 4,374,665

The following table is a summary of those assets in which significant unobservable inputs (Level 3) were used by the Adviser in determining fair value. Note that these amounts exclude any valuations provided by a pricing service or broker.

	Fair Value at January 31, 2024	Valuation Technique	Unobservable Input	Amount	Impact to Valuation from an Increase in Input
<i>Investments in Securities:</i>					
Common Stock	\$ 4,374,665	Discounted Cash Flow	Annualized Yield	6.507%	Decrease
Total Level 3	\$ 4,374,665				

The significant unobservable input listed in the above table is used in the fair value measurement of common stock, and if changed, would affect the fair value of the Fund's investments. The "Impact to Valuation from an Increase in Input" represents the change in fair value measurement resulting from an increase in the corresponding input. A decrease in the input would have the opposite effect.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (CONTINUED)

Repurchase Agreements - Repurchase agreements are transactions under which a Fund purchases a security from a dealer counterparty and agrees to resell the security to that counterparty on a specified future date at the same price, plus a specified interest rate. The Fund's repurchase agreements are secured by U.S. government or agency securities. It is the Fund's policy that its regular custodian or third party custodian take possession of the underlying collateral securities, the fair value of which exceeds the principal amount of the repurchase transaction, including accrued interest, at all times. In the event of default by the counterparty, the Fund has the contractual right to liquidate the collateral securities and to apply the proceeds in satisfaction of the obligation.

Currency Translation - The market values of all assets and liabilities denominated in foreign currencies are recorded in the financial statements after translation to United States Dollar ("USD") on the date of valuation using exchange rates determined as of the close of trading on the Exchange. The cost basis of such assets and liabilities is determined based upon historical exchange rates. Income and expenses are translated at average exchange rates in effect as accrued or incurred.

Foreign Currency - The Fund may enter into forward purchases or sales of foreign currencies to hedge certain foreign currency denominated assets and liabilities against declines in market value relative to USD. Forward currency contracts are marked-to-market daily and the change in market value is recorded by the Fund as an unrealized gain or loss. When the forward currency contract is closed, the Fund records a realized gain or loss equal to the difference between the value of the forward currency contract at the time it was opened and value at the time it was closed. Investments in forward currency contracts may expose the Fund to risks resulting from unanticipated movements in foreign currency exchange rates or failure of the counter-party to the agreement to perform in accordance with the terms of the contract. During the six months ended January 31, 2024, there were no forward currency contracts entered into by the Fund.

Reported net realized foreign exchange gains or losses arise from the sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on security transactions, the difference between the amounts of dividends, interest, and foreign withholding taxes recorded on the Fund's books, and the USD equivalent of the amounts actually received or paid. The Fund includes foreign currency gains and losses realized on the sales of investments together with market gains and losses on such investments in the Statement of Operations. Net unrealized foreign exchange gains or losses arise from changes in the value of assets and liabilities resulting from changes in the exchange rate and are included within net unrealized appreciation or depreciation in the Statement of Operations.

Federal Income Taxes - It is the Fund's policy to comply with the requirements of the Internal Revenue Code applicable to regulated investment companies, and to distribute substantially all of its taxable income, including any net realized gains on investments not offset by loss carryovers, to shareholders. Therefore, no provision for federal income or excise tax is required. The Adviser analyzed the Fund's tax positions taken on federal and state income tax returns for all open tax years and concluded that as of January 31, 2024, no provision for income tax is required in the Fund's financial statements related to these tax positions. The Fund's federal and state (Arizona) income and federal excise tax returns for tax years for which the applicable statutes of limitations have not expired are subject to examination by the Internal Revenue Service and state Department of Revenue. The earliest tax year that remains subject to examination by these jurisdictions is 2020.

At January 31, 2024, the aggregate cost of investments and unrealized appreciation (depreciation) for federal income tax purposes were as follows:

Cost	\$	3,612,182,712
Unrealized appreciation		3,060,458,253
Unrealized depreciation		(471,024,239)
Net unrealized appreciation	\$	<u>2,589,434,014</u>

Securities Transactions and Related Investment Income - Securities transactions are accounted for on the trade date (date the order to buy or sell is executed) with realized gain or loss on the sale of securities being determined based upon identified cost. Dividend income is recorded on the ex-dividend date. Interest income, which includes accretion of discount and amortization of premium, is accrued as earned.

Dividends and Distributions to Shareholders - Dividends and distributions to shareholders are recorded on the ex-dividend date. Net investment income (loss), net realized gains (losses), and net unrealized appreciation (depreciation) on investments

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (CONTINUED)***Dividends and Distributions to Shareholders - (Continued)***

[collectively “Distributable earnings (losses)”] may differ for financial statement and tax purposes primarily due to permanent and temporary differences which may include foreign currency transactions, wash sales, partnership income, corporate actions, passive foreign investment company shares, and equalization. The character of dividends and distributions made during the fiscal year from net investment income and net realized securities gains may differ from their ultimate characterization for federal income tax purposes. Also, due to the timing of dividends and distributions, the fiscal year in which amounts are distributed may differ from the fiscal year in which income or realized gain was recorded by the Fund. The Fund adjusts certain components of capital to reflect permanent differences between financial statement amounts and net income and realized gains/losses determined in accordance with income tax rules.

Indemnification - Under the Fund’s organizational documents, its officers and directors are indemnified against certain liabilities arising out of the performance of their duties to the Fund. In addition, some of the Fund’s contracts with its service providers contain general indemnification clauses. The Fund’s maximum exposure under these arrangements is unknown since the amount of any future claims that may be made against the Fund cannot be determined and the Fund has no historical basis for predicting the likelihood of any such claims.

Use of Estimates in Financial Statements - In preparing financial statements in conformity with accounting principles generally accepted in the United States of America, management makes estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of income and expenses during the reporting period. Actual results may differ from these estimates.

Directors Fees and Expenses - The Fund set up a Rabbi Trust to provide for the deferred compensation plan for Independent Directors that enables them to elect to defer receipt of all or a portion of annual fees they are entitled to receive. The value of an eligible Director’s account is based upon years of service and fees paid to each Director during the years of service. The amount paid to the Director by the Trust under the plan will be determined based upon the performance of the Davis Funds in which the amounts are invested.

NOTE 2 - PURCHASES AND SALES OF SECURITIES

The cost of purchases and proceeds from sales of investment securities (excluding short-term investments) during the six months ended January 31, 2024 were \$278,208,177 and \$802,274,407, respectively.

NOTE 3 - FEES AND OTHER TRANSACTIONS WITH SERVICE PROVIDERS (INCLUDING AFFILIATES)

Davis Selected Advisers-NY, Inc. (“DSA-NY”), a wholly-owned subsidiary of the Adviser, acts as sub-adviser to the Fund. DSA-NY performs research and portfolio management services for the Fund under a Sub-Advisory Agreement with the Adviser. The Fund pays no fees directly to DSA-NY.

All officers of the Fund (including Interested Directors) hold positions as executive officers with the Adviser or its affiliates.

Investment Advisory Fees and Reimbursement/Waivers of Expenses - Advisory fees are paid monthly to the Adviser. The annual rate is 0.55% of the average net assets on the first \$3 billion, 0.54% on the next \$1 billion, 0.53% on the next \$1 billion, 0.52% on the next \$1 billion, 0.51% on the next \$1 billion, 0.50% on the next \$3 billion, 0.485% on the next \$8 billion, 0.47% on the next \$7 billion, 0.455% on the next \$8 billion, 0.44% on the next \$7 billion, 0.425% on the next \$8 billion, 0.41% on the next \$7 billion, and 0.395% of the average net assets in excess of \$55 billion. Advisory fees paid during the six months ended January 31, 2024 approximated 0.54% of the average net assets. The Adviser is contractually committed to waive fees and/or reimburse the Fund’s expenses to the extent necessary to cap total annual fund operating expenses (Class A shares, 1.00%; Class B shares, 1.75%; Class C shares, 1.75%; Class R shares, 1.25%; and Class Y shares, 0.75%). The Adviser is obligated to continue the expense cap through December 1, 2024. The expense cap cannot be modified prior to this date without the consent of the Board of Directors. After that date, there is no assurance that the Adviser will continue to cap expenses. The Adviser may not recoup any of the operating expenses it has reimbursed to the Fund. During the six months ended January 31, 2024, such reimbursements for Class B shares amounted to \$10,326.

NOTE 3 - FEES AND OTHER TRANSACTIONS WITH SERVICE PROVIDERS (INCLUDING AFFILIATES) – (CONTINUED)

Transfer Agent and Accounting Fees - SS&C Global Investor & Distribution Solutions, Inc. is the Fund's primary transfer agent. The Adviser is also paid for certain transfer agent services. The fee paid to the Adviser for these services during the six months ended January 31, 2024 amounted to \$318,848. State Street Bank and Trust Company ("State Street Bank") is the Fund's primary accounting provider. Fees for accounting services are included in the custodian fees as State Street Bank also serves as the Fund's custodian. The Adviser is also paid for certain accounting services. The fee paid to the Adviser for these services during the six months ended January 31, 2024 amounted to \$172,002.

Distribution and Service Plan Fees - The Fund has adopted separate Distribution Plans ("12b-1 Plans") for Class A, Class B, Class C, and Class R shares. Under the 12b-1 Plans, the Fund reimburses Davis Distributors, LLC ("Distributor"), the Fund's Underwriter, for amounts paid to dealers as a service fee or commissions with respect to Class A shares sold by dealers, which remain outstanding during the period. The service fee is paid at an annual rate up to 0.25% of the average net assets maintained by the responsible dealers. The Fund pays the Distributor 12b-1 fees on Class B and Class C shares at an annual rate equal to the lesser of 1.25% of the average daily net asset value of Class B or Class C shares or the maximum amount provided by applicable rule or regulation of the Financial Industry Regulatory Authority, Inc. ("FINRA"), which currently is 1.00%. The Fund pays the 12b-1 fees on Class B and Class C shares in order: (i) to pay the Distributor distribution fees or commissions on Class B and Class C shares which have been sold and (ii) to enable the Distributor to pay service fees on Class B and Class C shares which have been sold. Payments under the Class R 12b-1 Plan are limited to an annual rate of 0.75% of the average daily net asset value of the Class R shares or the maximum amount provided by applicable rule or regulation of the FINRA (1.00%). The effective rate of the Class R 12b-1 Plan is currently 0.50%, of which 0.25% may be used to pay distribution fees and 0.25% may be used to pay service fees.

	Six months ended January 31, 2024 (Unaudited)			
	Class A	Class B	Class C	Class R

Service fees	4,918,450	4,168	116,482	65,437

Sales Charges - Front-end sales charges and contingent deferred sales charges ("CDSC") do not represent expenses of the Fund. They are deducted from the proceeds from sales of Fund shares prior to investment or from redemption proceeds prior to remittance, as applicable.

Class A shares of the Fund are sold at net asset value plus a sales charge and are redeemed at net asset value. On purchases of \$1 million or more, the sales charge will not be applied; however a CDSC of 0.50% may be imposed upon redemption if those shares are redeemed within the first year of purchase.

Class B shares are no longer offered for new purchases. Class B shares of the Fund are redeemed at net asset value. A CDSC is imposed upon redemption of certain Class B shares within six years of the original purchase. The charge is a declining percentage starting at 4.00% of the lesser of net asset value of the shares redeemed or the total cost of such shares.

Class C shares of the Fund are sold and redeemed at net asset value. A CDSC of 1.00% is imposed upon redemption of certain Class C shares within the first year of the original purchase.

The Distributor received commissions earned on sales of Class A shares of the Fund, of which a portion was retained by the Distributor and the remaining was re-allowed to investment dealers. Commission advances by the Distributor on the sales of Class C shares of the Fund are re-allowed to qualified selling dealers.

Householding

The Fund may, on occasion, mail notices, reports, prospectuses, or proxy material to shareholders. To avoid sending duplicate copies of materials to households, the Fund will mail only one copy of these items to shareholders having the same last name and address on the Fund’s records. The consolidation of these mailings, called householding, benefits the Fund through reduced mailing expense. If you have a direct account with the Fund and you do not want the mailing of these documents to be combined with those to other members of your household, please contact Davis Funds by phone at 1-800-279-0279. Your instructions will become effective within 30 days of your notice to the Fund.

Beginning in July 2024, as required by regulations adopted by the SEC, the Fund will be producing a Tailored Shareholder Report, which, together with Form N-CSR, will replace the current Annual and Semi-Annual reports that investors receive today. The Tailored Shareholder Report is intended to make the content more concise and easier for investors to understand. These new reports will include class-specific information, such as simplified expense presentation, fund performance details including returns, graphical representation of holdings, and material changes from the prior year to help investors monitor their fund by share class.

There is no action needed on your part:

- If you currently elect to receive shareholder reports electronically, you will receive the new Tailored Shareholder Report in this way.
- If you currently receive printed reports or postcard notices via mail, the new Tailored Shareholder Report will be mailed to you.

Detailed information (such as complete financial statements) will not be included in the Tailored Shareholder Report but will be available online, and if requested, delivered via email or in paper free of charge. This detailed information will be filed on a semi-annual basis on Form N-CSR. Please contact your financial intermediary to inform them if you wish to receive paper or email copies of the more detailed information and whether this will apply to all funds held with your financial intermediary.
